He donated "The Artie Smith Cup" as the league's first grade premierships trophy in the mid-1950s.

Mark Radium - Show Jumper

Mark Radium was foaled in 1932 at Taree out of a rogue thoroughbred magpie mare and sired by Master Radium. At the Sydney Show in 1937 he won three high jumps ridden by Les Blackwel. After this Show, he was sold to Fred Inglebert where he was ridden by the rider who coaxed the best out of him, Jack McGee. Mark Radium became part of Jack's team of show jumpers and competed in Pony and Open High Jumping contests from Brisbane, all over N.S.W., in Melbourne and Adelaide Shows and held the high jump record for most of these grounds with heights from 6ft 9ins to 7ft 8ins inclusive, even once jumping 7ft 1ins when recovering from pneumonia. From 1937 - 41 and 1947 - 55, Mark Radium won the Sydney Royal Easter Show's highlight events, the Mark Foy's Piazza High Jump 10 times and the Vice Regal High Jump 9 times.

The little pony loved the sound of applause and jumped in a very distinctive style. When the high jumps were on at the Royal Easter Show, and Jack and Mark Radium were contestants, 'side show' alley would even close down.

At age 23 years and with eyesight failing, Mark's last appearance was at the 1955 Royal Easter Show in Sydney where he uncharacteristically baulked for the first time. Jack dropped a match box at the spot he was to start his leap, and to the roar of the crowd, jumped 6ft 9in which was enough to have him tie the event with his stablemate Victory. It was then announced that Jack was retiring Mark and this was to be his last jump. As Mark completed his lap of honor, the crowd became completely silent to show their respect for this great champion.

Mark Radium, Victory and Don were stabled at Berry during their non competitive times, where many years later, a park was named in Mark Radium's honor. The park was the work of the local Apex club and some years later it was handed over to the Shoalhaven City Council.

Regal Reign - Olympic Equestrian

Regal Reign was born in 1969 and raised by Neil Lavis at Braidwood as a race horse. At the end of a short racing career he was purchased by Ian McDonald from Nowra. After several horse jumping lessons with Merv Bennett, where Ian would ride some 20kms from Huskisson to Worrigeer and back, Ian, overwhelmed by Regal Reign's endless energy, sold him to Merv.

Regal Reign, under the horsemanship of Merv Bennett, became one of Australia's top level equestrian horses for 10 years and completed 15 three day events - winning Melbourne twice prior to representing Australia at the 1976 Montreal Olympics, 1980 Fontainebleau alternative Olympics, 1982 Luhmuhlen World Championships and 1984 Los Angeles Olympics, all without jumping penalties on the cross country.

Upon completing the Montreal Olympics, Regal Reign was to be sold in Canada as the Australian Olympic Committee and the Bennetts' could not afford the very expensive airline charge. Learning of Regal Reign's fate, the local community raised the necessary funds to freight this Shoalhaven icon home and to allow participation in future Olympics.

Regal Reign returned to Australia to spend his final years on the Bennetts' Worrigeer property and, after illness in 1998, aged 29, was laid to rest at the junction of a road named after him – Reign Close.

Archer - Melbourne Cup Winner

Archer was foaled in the Braidwood district in 1856, from the dam Maid of the Oaks, and sired by the imported horse William Tell. His owners were Mr Tom Roberts and his sister Elizabeth Hassall of Exeter Farm. Archer was leased by Etienne de Mestre, a close friend of Roberts, and trained at his Terrara Stables and before long brought nation-wide fame and recognition for de Mestre and the Shoalhaven and Braidwood districts.

The bay colt was three years old when he began his training at Terrara early in 1860 and he was considered unusually big for a three year old, standing 16.3 hands, with powerful hindquarters, a deep girth, fine sprung ribs and good head and neck. Little value was placed on the immature Archer after he performed badly in his first two races at Randwick, however, at the Spring Meeting of 1860 and at the Autumn meeting of 1861 he won every event in which he participated. He won seven races in succession.

The first Melbourne Cup was a fairly subdued affair, watched by a modest crowd of only 4000 where Archer spread-eagled the field and defeated the Victorian champion, Mormon, by six lengths. The year 1862 witnessed the return of the Terrara horses, more confident than ever that Archer would beat Mormon and everything Victoria could put against him. It was not idle boasting, as later events were to prove.

Archer's big body told on his legs and soreness often interfered with his training. In 1864 he was retired and returned to his owners at Braidwood for stud duties, where he remained until his death in December 1872.
