CONSERVATION MANAGEMENT PLAN FOR BERRY SHOWGROUND

Friday, January 31, 2003

Shoalhaven City Mayor Greg Watson today announced that Shoalhaven City Council is preparing a Conservation Management Plan for the Berry Showground.

Council and the Department of Land and Water Conservation jointly funded a study that will establish a historical context for the site and investigate management needs and priorities for the showground.

The study will involve consultation with key user groups of the Berry Showground and involve a public meeting.

A draft Conservation Management Plan for the Berry Showground will be presented to Council mid year.

The Plans then will be placed on public exhibition before a further report is submitted to Council prior to adoption.

For information on the study, contact Council's Recreation Strategy Officer James Harris on (02) 4429 3372
