33 tonne	Turners Lane	Bolong	Railway	
44 tonne	Toolijooa Road	Gerringong	Railway	

Road Restrictions (Weight and Height)

Temporary Natural Disaster Load Limits

The following roads have strict load limits imposed for public safety:

Address	Dry Weather Load Limit
At 136 Bunkers Hill Rd, Kangaroo Valley	5 tonne– resident access only, closed to other traffic 24/7 load & traffic restriction enforcement in place
At 368B Bunkers Hill Rd, Kangaroo Valley	Closed to all traffic. New cracks in roadway detected
At 40 Foremans Rd, Kangaroo Valley	5 tonne – resident access only, closed to other traffic
Wattamolla Rd, Woodhill Mountain	9 tonne, entire length 24/7 load & traffic restriction enforcement in place
At 685 Upper Kangaroo River Road, Upper Kangaroo River	9 tonne – resident access only, closed to other traffic 24/7 load & traffic restriction enforcement in place
Kangaroo Valley Road, Kangaroo Valley	12 tonne
Abernethy's Rd, Budgong	3 tonne

The imposed road load limits at various slip sites have been confirmed by Council's geotechnical consultants by applying slope stability analysis. This considers vehicle loads, geology, soil conditions and road embankment slopes to derive a factor of safety against further embankment collapse.

Refer related documents for more information.

Vehicle Weight Limit Exemption Application

Council road management staff will consider requests for an exemption to a load limit at a landslip site, and this can be done by downloading and completing the [SCC Application Form – Load Limit Exemption](#).

Any consideration of a temporary load limit exemption would be on a risk assessment of slope stability undertaken by Council's geotechnical consultant.

Allow at least 10 business days to have this application considered.
