The Merger is a film that tells a topical and  
engaging story that weaves important social  
issues that will resonate with everyone

*The Merger tells the story of former professional football  
player Troy Carrington who has returned home to Bodgy  
Creek after an abrupt end to his sporting career. He is  
persuaded to coach the hapless local footy team, the  
Roosters, where he sees an opportunity to recruit  
refugees from the Regional Support Centre to turn the  
team's fate around.*

*What Follows is a comedy about a man seeking  
redemption, a team trying to reclaim victory, and a  
community coming to terms with the changing face  
of Australian rural life.*
