Contributions Plan Background

Shoalhaven Contributions Plan 2010 allows Council to levy contributions on development consents and complying development certificates issued for land within Shoalhaven. These contributions are collected for the provision of community infrastructure projects (projects detailed in the Plan) to meet demand created by development.

Shoalhaven Contributions Plan 2010 can be viewed at the following internet link:

<http://s94.shoalhaven.nsw.gov.au/>

When are contributions payable?

The requirement to pay contributions is determined upon a developer / landowner submitting a development / subdivision application to Council which results in increased use of the subject land. Normally, monetary contributions are levied on such development for additional community facilities and/or infrastructure created by increased use of the subject land such as provision of libraries; community facilities; open space; roads; drainage, etc. Council cannot seek payment of contributions if a developer / landowner does not intend to act on a development / subdivision approval.
