Council project for better access

Shoalhaven City Mayor Councillor Paul Green has announced a joint initiative between the NSW Transport and Infrastructure and Council for a project to assist seniors and people with a disability to learn more about accessible public transport.

The Shoalhaven Mobility and Access Days will be held in Nowra, the Bay & Basin area, and Ulladulla during Seniors Week, 22-26 March 2010.

Clr Green said that many of local people suffer from social isolation and are unable to attend events and activities which are an important part of a quality of life.

“This initiative will provide first hand demonstrations and information about accessible transport so that Shoalhaven citizens with mobility impairment can access events and activities in the community,” Clr Green said.

“The social isolation that many local people endure can be changed by helping these people attend this informative event.

“This project is an excellent example of how NSW Government and Council can work together with the business and community sectors to address important community issues and provide support for older people and people with a disability,” Clr Green said.

Shoalhaven Mobility and Access Days will be held at:

Monday, 22 March	Ulladulla Civic Centre
Thursday, 25 March	Shoalhaven Entertainment Centre
Friday, 26 March	St. Georges Basin Country Club

People wishing to attend – or for more information – you can call Council’s Road Safety Officer on (02) 4429 3424.
