Lightning strikes Bay and Basin Leisure Centre

The main pools in Shoalhaven City Council's Bay and Basin Leisure Centre have been closed following a lightning strike on the centre.

The strike destroyed an electronic controller which regulated the pools temperature and chlorine levels. The controller was destroyed by lightning on the night of Thursday 4 February.

Other services – the gym, the café, and programs – in the Leisure Centre will still be operating as usual.

Council's Leisure Centre staff are seeking a replacement for the electronic controller and expect that the leisure centre pools will be open on Saturday 6 February 2010.
