

**EXISTING VEGETATION STRUCTURE - MAP 5**

**Collingwood Beach Dune Vegetation Management Plan**

Existing vegetation structure

- Incipient foredune vegetation
- Relatively intact overstorey regrowth
- Modified overstorey regrowth
- Overstorey generally absent

**Zone 1**

- Allow vegetation to regenerate naturally
- Restrict access through fencing and signage

**Zone 2**

- Fell exiting dead trees and shrubs (retain felled material)
- Establish existing foliage using foliage cover assessment methodology
- Thin existing trees and shrubs if cover exceeds 70% (preferentially retain larger more mature trees and trees and shrubs adjacent to beach access ways or storm water outlets)
- Maintain tree and tall shrub cover between 50% - 70% through ongoing seedling removal and pruning
- Monitor using foliage cover assessment methodology

**Zone 5**

- Fell exiting dead trees and shrubs (retain felled material)
- Retain trees as indicated
- Prune trees and tall shrubs to a minimum of height of 1.5m
- Prune low shrubs within the 1.5-2.5m view window to between 30% and 50% foliage cover.
- Monitor using foliage cover assessment methodology

**TO BE IMPLEMENTED IN ALL ZONES**  
**Retention of felled/trimmed material**

- Coarsely break up or mulch felled/trimmed material and spread thinly over the ground in the immediate vicinity (no greater than 5cm deep for mulch)

**Weed Control**

- Conduct inspections to identify the presence of noxious or invasive weeds
- Carry out control activities appropriate to target weed species

**Identification and removal of hazardous vegetation**

- Conduct inspections of trees to identify trees that pose a risk to public safety
- Conduct removal of hazardous trees/limbs
- Conduct removal of overhanging vegetation along beach access ways and the shared pathway

**Full details of zone protocols are provided in Section 10 of the Collingwood Beach Dune Vegetation Management Plan**

**PROPOSED VEGETATION MANAGEMENT - MAP 1**

**Collingwood Beach Dune Vegetation Management Plan**

- Proposed management zones
- Zone 1 - Up to 100% cover of trees and tall shrubs
  - Zone 2 - Up to 70% cover of trees and tall shrubs
  - Zone 5 - Prune trees and tall shrubs to 1.5m high
  - Zone 6 - Protection of incipient foredune vegetation
- Lot boundaries
  - Foliage cover assessment methodology
  - Photopoints (additional to foliage cover assessment)
  - Trees to be retained in Zone 5
