### **Effluent Services – Discussion Point**

**28 August 2017**

Customers can avail themselves of the Council contracted service arrangement for their property human waste removal needs. There is no obligation for customers to do so however and they may wish to utilise an alternative provider from the commercial market. Property owners are always responsible to ensure that the operation of systems on their property meet the approval conditions. Alternative commercial providers able to remove waste can be found via the internet or yellow page sites under waste removal.
