Meet someone new in your neighbourhood

Council has 24 recognised resident's groups that meet on a regular basis to discuss important local projects in your community.

These groups, known as Community Consultative Bodies, (CCBs) are a great way to get to know people in your town and assist Council on setting community driven goals.

Every drop counts - Start saving water

Flows in the Shoalhaven River have gradually decreased due to the prolonged dry weather and are now at the trigger level where pumping is required to cease.

Shoalhaven Water will continue to draw water from the off-stream storage at Bamarang Dam.

If no rainfall occurs to allow pumping to recommence, Shoalhaven Water will anticipate that the trigger level for the implementation of Level 1 Water Restrictions (Bamarang level to 60% capacity) will be reached in early March.

Seniors Week Treatment Plant Tour - Wednesday, 8 March 2017

Join Shoalhaven Water for a special Seniors Week Water and Wastewater Treatment Plant Tour on Wednesday 8 March 2017.

You will see how water is collected and treated before being distributed to your home and how wastewater is treated before becoming a part of the highly acclaimed and award winning recycled effluent management scheme.

There is no charge to attend and morning tea will be provided. To find out more or to book a place, phone 4429 3214. Numbers are limited so book early!
