

Keeping the Community Informed

Effluent Services – Discussion Point

1 June 2018

Council is currently exhibiting the Integrated Strategic Plan 2018 and conducting information sessions.

Following the Council decision to continue providing a effluent and septic tank removal service, a competitive tendering process was commenced in late 2017. Consequently, Council assessed and accepted the best tender pricing option. Council resolved at its meeting that customers who opted to use this service, could do so on the basis of a full cost recovery basis. The proposed new fees and charges for 2018/19 which are now on public display for comment, outlines the cost of the range of effluent and septic tank removal services from 1 July 2018. The public is invited to view and provide submissions.
