We want your polystyrene!

The clean polystyrene boxes and sheets that is. This white “foam” commonly found in packaging for electronic goods, can be recycled at our Waste Depots **and they want it!**

All of our Recycling and Waste Depots have polystyrene drop-off areas, where you

can dispose of it for FREE. Council has its own polystyrene recycling machine which shreds, heats and melts the polystyrene into solid blocks, ready for re-processing into new products.

NO small broken pieces or pellets. (Please dispose of these in your red lid bin). Please don't put ANY polystyrene in your yellow lid bin as it gets "spoiled" and dirty and unsuitable for recycling.

For your nearest depot location visit our [Recycling & Waste Depots page](#).
