1 Explanatory Notes

Council's contracted arrangement is with Premier Pumpouts Pty Ltd. Your assistance in providing detailed information about the location of tanks will enable the Contractor to assess the site for access.

The contractor trucks will require adequate turning space for a 6m truck and access within 30m of the collection tank.

Please indicate on this form if you wish to be present at the time of the service.

IMPORTANT NOTES:

Concrete Tanks - the mortar seal around the access lid will be broken at the time of the service. Replacement will be the owners responsibility.

Plastic/Concrete Tanks - it is the owner's responsibility to ensure the tank is refilled with water immediately after the service to prevent the tank from popping.

Customers are to ensure that the tanks have anchor points installed in accordance with standards AS/NZ S 1546.1:2008. A plumber or tank manufacturer can advise on the anchor points.

3 Property Details continued

Are there any gardens / structures in or around the tank which might prevent access? . Yes No

Are there any animals that need to be restrained at the property? Yes No

Do you want to be present at the service? Yes No
(The contractor will arrange a suitable time with you.)

1) If the option to be present at the service is sought, the service will not be performed until arrangements have been made between the Contractor and applicant.

2) Lids must be in a good state of condition at the time of service otherwise if damaged/broken/missing, the service will not be undertaken until rectified.

Do you wish your AWTS servicing agent to be present?
(you may be liable for this cost separately with your agent)

Yes No

In your opinion is there suitable access to your property for the vehicle used by Council's Contractor without any damage being caused to fences, gates, driveways, paths, edging, grassed areas or gardens? Yes No

Do you recommend a site inspection be undertaken by Council's Contractor prior to the service? Yes No
