1 Account arrangements for rental properties

As a courtesy Shoalhaven Water offers an option for property owners to advise tenants of water usage charges by sending the occupant of the property address the water usage component of the water Account. Check with your managing or real estate before proceeding.

The way a split water account works:

- Property owner will receive a total Water Account including water & sewer availability & water usage charges
- Tenant will receive a Water Account for the water usage component of the account which will be addressed to the occupier.

No deviations to this option are possible and all other reminders/notices will be sent to the property owner.

In accordance with the Local Government Act, any outstanding amounts belonging to the property remain the owner's responsibility.
