Explanatory Notes

This form is to be used for the installation of metered and unmetered services above 25mm. If you require a quote for works please contact Shoalhaven Water by email. Once installed, all metered services will be levied water and wastewater availability charges based on the size and number of water meter service connections. Sewer and trade waste usage charges may also apply. Fees & charges are available on our website.

- Please note that incorrect or insufficient information will result in delayed installation or application being declined.
- Payment of any associated fee does not signify that the application has been approved.
- Payment options are available on the next page.

Important information

- It is recommended to submit your application at least two months prior to needing water connected.
- A3 Hydraulic Plans and Water Sizing Calculations must be provided for commercial / industrial / medium & high density developments.
- Internal plumbing works are the responsibility of the property owner.
- It is the responsibility of the property owner to ensure the meter is positioned within the correct boundary of the property. Unclear or incorrect boundaries may result in incorrect or delayed installation and additional relocation costs.
- The nominated location must have a 2m square clearance for installation to occur. Obstructions to the area will result in installation being suspended until the area has been cleared.
- Council reserves the right to alter the position of the service if necessary.
- Downsize of meter will affect water flow and pressure to the property. For related information see our *Downsize, Disconnection or Nominal Sizing of Water Meter Services* application and information sheet.

I acknowledge that I have read the information contained on both pages of this form and as applicant and I have notified the owner of impending ongoing charges.

TABLE 5.4 - Connections to Water Mains

This table is to be used as a guide for connection to Shoalhaven Water mains. A full version of the Water Supply Supplement is available at www.shoalwater.nsw.gov.au - Shoalhaven Water Supplement to the WSAA Water Supply Code of Australia.

Development Type	Nominal Service Line & Meter Size	Comments
Medium Density ⁴	Individual 20mm meters on a manifold	20mm meter per dwelling/unit/ premises. Additional meters may be provided for common property areas where approved. Manifold subject to sizing in accordance with AS3500 ¹
High Rise/Complex Development	Individual 20mm meters on a manifold	Alternatively smart metering may be utilised subject to approval
Commercial or Industrial	As per qualified hydraulic calculations ³	

Notes:

- Shoalhaven Water has standard sizing for manifold assemblies.
- If the water meter and service size is not stipulated sizing shall be undertaken in accordance with Plumbing code of Australia (PCA) and AS/NZS 3500
 - For 16 units or less, a licenced plumber or a qualified hydraulic consultant.
 - For more than 16, units a qualified hydraulic consultant.
- For Non Residential development the water meter and service size (if greater than 20mm) and fire service (if applicable) shall be determined by a qualified hydraulic consultant.
- Conditions/requirement are based on Local Government (General) Regulation 2005 – REG 152.
- Refer to Council Policy - "Determining Residential & Commercial Properties for the Purpose of Levying Water & Sewer Charges".
