
Related Party Disclosures

Policy Number: POL17/85 • **Adopted:** 28/11/2017 • **Minute Number:** MIN17.1030 • **File:** 53488E • **Produced By:** Finance Corporate & Community Services Group • **Review Date:** 28/11/2018

1. PURPOSE

The purpose of this policy is to define the parameters for Related Party Transactions and the level of disclosure and reporting required for Council to achieve compliance with the Australian Accounting Standard AASB124 – Related Party Disclosures.

2. STATEMENT

Council is committed to responsible corporate governance including compliance with laws and regulations governing related party transactions.

Related party relationships are a normal feature of commerce and business. For example, entities frequently carry on parts of their activities through subsidiaries, joint ventures and associates. In those circumstances, there is the possibility of the entity having the ability to affect the financial and operating policies of the Council through the presence of control, joint control or significant influence.

A Related party relationship could influence the normal business operations of Council even if related party transactions do not occur. The mere existence of the relationship may be sufficient to affect the transactions of the Council with other parties. Alternatively, one party may refrain from trading with Council because of the significant influence of another – for example, a local supplier may be instructed by its parent not to engage in supplying goods to Council.

For these reasons, knowledge of Council’s transactions and outstanding balances (including commitments and relationships with related parties) may affect assessment of Council’s operations.

4. RELATED LEGISLATION AND DOCUMENTS

- Local Government Act 1993
- Local Government (General) Regulation 2005
- Local Government Code of Accounting Practice and Financial Reporting
- AASB124 – Related Party Disclosures
- AASB10 – Consolidated Financial Statements

5. MATERIALITY

AASB124 provides that Council must disclose all material and significant Related Party Transactions and outstanding balances, including commitments, in its annual financial statements. Generally, disclosure will only be made where a transaction has occurred between Council and a related party of Council. In addition, the transaction must be material in nature or size when considered individually or collectively.

When assessing whether such transactions are significant the following factors will be taken into consideration:

- Significance in terms of size
- Was it carried out on non-market terms
- Is it outside normal day-to-day council operations
- Was it subject to council approval
- Did it provide a financial benefit not available to the general public
- Was the transaction likely to influence decisions of users of the annual financial statements

To enable Council to comply with AASB124, Councils KMP are required to declare full details of any related parties and related party transactions. Such information will be retained and reported, where necessary, in Councils Annual Financial Statements.

Accordingly, Council would apply judgement in determining the extent of information it needs to collect to meet the objective of AASB124, as it has been determined that there is little value in incurring significant costs to obtain data that is immaterial for disclosure.

The following are relevant when assessing materiality for disclosing KMP related party transactions:

- the potential effect of the relationship on the financial statements (ie not materiality to the related party) when assessing the quantitative aspects; and

- transactions which occur on terms no different to that of a transaction with the general public and in a public service provider / taxpayer relationship, are not likely to be qualitatively material for disclosure

These types of transactions are not presumed to be material by nature of the transaction alone.
