2. Do I need an auspice organisation?

You do NOT need an Auspice organisation if you:

- Are registered as a non-profit organisation with NSW Fair Trading or ASIC (as an incorporated body or company limited by guarantee); and
- Have public liability insurance and a bank account in your organisation's name.

You DO need an Auspice organisation if you:

- Are an individual or unincorporated community group.

An Auspice is a registered non-profit organisation who helps you by managing grant funding on your behalf. Registered non-profit organisations have an adopted constitution that sets out how they will manage funds and record/report spending, to ensure that funds are used appropriately and not used for profit.

You can approach an organisation to Auspice your grant project. Many local community service organisations are keen to work with local residents to deliver projects that make a difference in the local area. As well as helping you with managing grant funds, an Auspice organisation may also be able to help you by contributing local experience, networks, and resources to support your project.

3. I want to apply for funding for equipment or materials for my community, is this eligible?

YES, however, applications should aim to limit funding requests for materials or equipment. Materials and equipment expenses cannot exceed 50% of the total value of grant funding applied for.
