Message from the Mayor

As we look ahead to 2021-22, the future appears promising as we return to a more regular way of life. Our facilities and services are open, and our businesses are reporting growth.

This year's Delivery Program and Operational Plan will continue to deliver upon priorities as determined by you - our community, by way of the Community Strategic Plan.

There are some really exciting major projects underway and due for completion this year. Council continues to forge ahead with industry-leading waste management initiatives including the Materials Recovery Facility, and our partnership with Bioelektra, which will drastically reduce our landfill deposits and significantly extend the life of our West Nowra Waste Facility. It is inspiring to see Shoalhaven City paving the way in best practice waste management initiatives to help create a more sustainable future for our community and our environment.

Council continues to take proactive steps towards managing and catering for our current and emerging population, with significant infrastructure projects in progress, including sewer and water infrastructure along Moss Vale Road to support our growing population.

It is important to create safe and inspiring spaces for the community to come together in relaxation and play. Boongaree Park in Berry is quickly taking shape and when it reaches fruition, will be a wonderful hub for all members of the community and a major drawcard for the area. The sustainable tourism projects being undertaken across the Shoalhaven will allow both residents and visitors improved access to some of our incredible natural areas and will help to frame popular tourist spots whilst limiting environmental impacts from its use.

Importantly, Council will continue its crucial work in recovery and resilience. The next twelve months will see further developments in resilience plans, flood studies and Coastal Management Programs to help prepare for future events and to preserve and care for our coastal waterways.

In 2021, our Council is in good shape to meet the needs of our current and future community and I look forward to the Delivery Plan and Operational Program being rolled out over the next twelve months.

Chief Executive Officer Message

I am thrilled to present the Delivery Program and Operational Plan for 2021-22. This document is your guide to the priorities and outcomes you have set for Council to deliver over the next twelve months.

As restrictions ease and we move through bushfire recovery and into resilience, we return to a more consistent pace of business this year, confident in delivering our projects and outcomes for the community.

You have told us that revitalisation of public spaces through infrastructure and activation is important. The long-term development of the Shoalhaven Community and Recreation Precinct at Artie Smith Oval will provide open space and community sporting facilities in one location, including a community pavilion providing support services with the potential to provide aquatic, medical, physiotherapy, rehabilitation health, wellness and fitness services. This hub will play an important role in the health, wellbeing and connection of the local community, now and into the future.

Activation campaigns such as the upcoming 'Live and Local' campaign will support our local musicians and venues, whilst creating vibrant events and helping to bring the community together through shared experiences.

Major community facilities in the pipeline such as the Sanctuary Point Library are fast becoming a reality. The development will provide a place for community activity; access to technology and information; a place for meeting, collaborating, connecting, studying; and access to business spaces, reader services and collections.

Strategic Road Projects including the Far-North Collector Road will better connect our communities and improve travel times by relieving the pressure from nearby roads.

Diversifying the economic base of our region is important in ensuring a stable and resilient local economy. The upcoming release of Stage 10 at Flinders Industrial Estate and Stage 5 at Albatross Aviation Technology Park will encourage the set up or relocation of large-scale commercial operations into the Shoalhaven area, increasing local jobs and flow-on economic benefits in region.

The development of the Ulladulla Harbour berthing facility will have a significant impact on the Shoalhaven's commercial and tourism offering, opening up further opportunities for economic growth and development for our community.

Council continues to refocus on Customer Service as the centrepiece of everything we do and the new customer service centre remains a key project. I hope you enjoy looking through the 2021-22 Delivery Program and Operational Plan, your road map to Council's actions and priorities over the next twelve months, to achieve the aspirations of the Shoalhaven community.

Chief Executive Officer

Collaboration

We enjoy working together to deliver for our community

Adaptability

We are ready for change and willing to embrace a new situation

Integrity

We are committed to maintain high ethics and standards

Respect

We are mindful of and care about the feelings, wishes and rights of others

Values are the fundamental beliefs of a person or organisation.

These principles guide behaviour and help organisations to determine if they are on the right path and fulfilling their goals by creating an unwavering guide for all to follow.

Shoalhaven City Council has chosen four Core Values: Council's Core Values are reflected throughout the Code of Conduct.

Community Vision Statement

"We will work together in Shoalhaven to foster a safe & attractive community for people to live, work, stay & play; where sustainable growth, development & environmental protection are managed to provide a unique & relaxed lifestyle"

Our Community

Shoalhaven is unique with its spectacular natural environment, growing population and robust economy. It is a wonderful place to live, work, stay and play. From Berry to Durras, the coastal strip sustains diversity of places, people and environments.

Shoalhaven is located on the south coast of New South Wales, with the regional centre of Nowra-Bomaderry located about 160 kilometres south of Sydney. Most of the population is concentrated along the coastal fringe, which is traversed by the Princes Highway. The major centres include Nowra-Bomaderry, Milton-Ulladulla, Huskisson-Vincentia, St Georges Basin District, Culburra Beach and Sussex Inlet. The area encompasses a total land area of about 4,531 square kilometres, including substantial areas of national park, state forest, bushland, beaches and lakes. The natural amenity of the area is a strong attractor, for both new residents, holiday makers and day trippers.

The original inhabitants of the Shoalhaven area are the Wodi Wodi, Wandandian and Murramarang Aboriginal people. European settlement dates from 1822 when land was taken up near the mouth of the Shoalhaven River.

The Shoalhaven is blessed with perhaps the most scenically beautiful landscapes on the east coast of Australia, ranging from the lush rainforests, woodlands, rocky terrain, coastal plains, farmland and floodplains. The area also has more than 165 kilometres of coastline, the longest of any local government area in NSW. The coast is very diverse in its character, with major estuaries, many coastal lakes, long wild beaches and small pocket beaches, extensive coastal dune systems, towering sandstone headlands and rugged bluffs.

The Shoalhaven population has a strong sense of community, a desire to help one another, friendly, welcoming and caring. Community involvement in Council and community activities is reflective of the large numbers attending key events being held throughout the year.

This Integrated Plan aims to complement the wonderful place that is the Shoalhaven and to build priorities, goals and actions that provide direction for the community and Council into the future.

Resilient, Safe & Inclusive Communities

Council will continue to work towards the vision for the Shoalhaven to emerge from the 2019-20 bushfires and its impacts in a better, stronger and more resilient position than it was prior to the emergency.

The operational plan includes activities which will minimise and mitigate the impact of future natural disasters. There is a continued focus on community recovery through programs which build the resilience of Shoalhaven community and our natural environment.

Council will continue to implement priorities from our coastal management plans and deliver asset protection projects which will safeguard important community assets and build our resilience so that we can be more prepared for future disasters.

Ongoing actions include:

- Working with partners to implement initiatives which encourage help-seeking and to build community understanding of mental health issues and available supports
- Supporting the development of a long term Community-led Resilience Plan
- Implementation of the updated Shoalhaven Adaptation Plan
- Encouragement of business growth and job creation in response to the COVID-19 pandemic
- Engagement to improve community understanding of emergency management arrangements

Important Message

This Delivery Program including the Operational Plan 2021/22 and Annual Budget has been prepared under the evolving response to the Novel Coronavirus pandemic (COVID-19), which may have a unknown impact on the delivery of Council's objectives as the situation evolves.

The financial impact of the situation is continually monitored, along with options to ensure Council continues to be managed in a fiscally responsible manner and any necessary adjustments to the 2021/22 Budget will be provided for consideration through the quarterly budget review process or sooner should the circumstances warrant.

Our Major Projects

Shoalhaven Community & Recreation Precinct (SCaRP)

Shoalhaven Community and Recreational Precinct is an integrated regional community and recreation facility that aims to meet the needs of the Shoalhaven's growing community. In 2021/22, Council aims to progress with three components of the SCaRP masterplan. The Artie Smith component will see the commencement of the construction and delivery phase which includes new sporting facilities for AFL, Cricket and Croquet with associated sporting amenities, spectator viewing areas, car parking and supporting infrastructure.

The redevelopment of the original Bomaderry Basketball Stadium will also progress to the construction and delivery stage and aim to bring the original facility up to date and provide additional indoor recreation area for various indoor sports to supplement the Shoalhaven Indoor Sports Centre. Council aims to progress to the investigation and design phase of Stage 2 (Northern Precinct), which incorporates the new community pavilion, athletics track, and rugby league fields. This investigation and design of Stage 2 (Northern Precinct) aims to develop more detailed concepts as articulated in the masterplan, in a staged approach.

Sanctuary Point Library

Council is continuing to progress the new Sanctuary Point Library on the corner of Kerry Street and Paradise Beach Road. Concept plans have been developed and initial community consultation has been completed for this important community space, which will include a large library, community meeting rooms, a technology space, exhibition area and outdoor terrace. Following lodgement of the development application, Council will be undertaking further community consultation on the detailed design for the library with construction due to commence once funding is finalised.

These major projects are about **improving the Shoalhaven** as a wonderful place to live, work, stay & play

Nowra Riverfront Precinct

The Nowra Riverfront Precinct provides a significant opportunity to shape the future of Nowra and strengthen its role as the civic, community, tourism and recreational hub for the Shoalhaven region.

Council is committed to moving forward with proposed urban design and land use planning changes that will enable the redevelopment of this key precinct. Council is actively participating in the Nowra Riverfront Advisory Taskforce that has been set up by the NSW Government to drive the revitalisation of the precinct and assist in fast-tracking development in the area. This joint state and local government approach will ensure activities are coordinated and aligned to the existing works underway, including the new Nowra Bridge and Shoalhaven Hospital Masterplan. New detailed planning and development controls will be prepared to help facilitate these changes and will involve further community consultation and input opportunities.

Material Recovery Facility

The global recycling crisis over the past 2 years prompted Council to critically analyse opportunities to improve the quality of recyclable product within the region. Success in recycling is achievable if materials can be sorted into their purest form. Council have committed to design, develop and construct a state-of-the-art materials recovery facility at West Nowra. This facility will process the recycling materials collected in the yellow lid bins, from Council's 10 depots and other local commercial operations. The Council owned and operated facility, will provide flexibility in adapting to external pressures that affect the economics and management of recycling, improve Council's landfill diversion rate and assist in the transition towards a circular economy.

Far-North Collector Road

The Far North Collector Road (FNC) is an integral part of a suite of new roads and upgrades required to accommodate housing growth in the Moss Vale Road Urban Release Areas. The FNC Road will link Illaroo Road (at western end of West Cambewarra

Road, Bangalee) to Moss Vale Road (at Bells Lane). The new road will reduce traffic volumes on Illaroo Road and alleviate congestion near the Shoalhaven Bridge crossing. Construction of the Southern Connection elements was completed by February 2021, with construction on the Far North Collector Road to commence later in 2021 and estimated for completion by June 2024.

Boongaree - Stages 2, 3 and 4

Boongaree is quickly shaping up to becoming an attraction for the township of Berry and for the greater Shoalhaven. Council is aiming to commence the construction and delivery of stages 2, 3, and 4 which include the pump track, skatepark, practice netball courts and cricket nets, and reconciliation garden in 2021/22. As the works on Stage 1 Rotary Nature Play Park draw closer to completion, they will be complemented with a new and larger skate park, sealed pump track which will be an exciting addition to the Youth Zone. Stage 4 will see the commencement of works in the eastern precinct of Boongaree with the investigation, design and construction of two synthetic practice netball courts and four cricket nets, and the design of the reconciliation garden, a unique and educational garden. The full set of works are expected to be completed by December 2023.

Resource Recovery Facility

Household mixed-waste collected in the red lidded kerbside bins in the Shoalhaven will soon be sent to a Resource Recovery Facility to recover recyclable materials from the mixed waste stream. The new facility will be located adjacent to Council's current landfill site in West Nowra. It will be constructed and operated by Bioelektra Australia, using an autoclave process to sterilise and dry the waste, which is then readily sorted into its different recyclable components using traditionally sorting technologies. Everything that can be reused or recycled is extracted in this one process.

This state-of-the-art facility will be Australia's first Advanced Waste Treatment plant capable of diverting over 90% of mixed waste from landfill. Works will commence in late 2021 and the facility is expected to be fully operational by 2023.

Our finances

The 2021/22 budget is in accordance with Council's adopted budget principles for no cash deficit budgeting and provides funding for strategic priorities identified in the operational plan totalling \$516 million comprising of an operating budget of \$266 million and a capital works program of \$260 million.

Council continues to operate in the context of uncertainty with the proposed 2021/22 budget being a flexible and dynamic budget to ensure that the levels of service provided to the community remain unchanged with opportunities for expansion to be considered as and when the uncertainty decreases.

Whilst Council continues to prioritise renewal and maintenance of existing assets, the amount available for these activities remains insufficient. An average of 40% of Council's assets are beyond their expected life with many assets in a condition which is below the expected levels of service. This remains an ongoing fiscal challenge for Shoalhaven City Council, and many other Councils in NSW, and is a key factor considered in Council's long-term financial and asset management strategic plans.

Council has used the additional funds from the introduction of the Special Rates Variation (SRV) to substantively address the asset maintenance backlog. There remains an estimated backlog of \$56M of to bring assets to a satisfactory condition which meets the community's needs identified in the Community Strategic plan (CSP). Council has also identified a current funding shortfall of \$9M annually to keep assets to a satisfactory condition into the future.

Planning & Reporting Framework

The Integrated Plan is developed in conjunction with State and Regional Plans, the Resourcing Strategy, other supporting plans, Councillors, staff and community.

The community plan for the Shoalhaven over the next ten years is captured in the Community Strategic Plan (CSP). While Council will use the plan to develop its Goals and Actions, other government and non-government organisations can and will use the CSP to align their activities to meet Shoalhaven's needs.

The Resourcing Strategy is used to address the budget needs through the Long Term Financial Plan, assets required through the Asset Plan and Council's workforce through the workforce plan. The Delivery Program Goals are Council's response to the Community Strategic Plan. The one-year Operational Plan Actions details what will be completed over the each 12 month period.

(Figure 1): Integrated Planning and Reporting Framework

Shoalhaven's Integrated Plan Structure

The Shoalhaven Integrated Plan is made up of four key components (Figure 1):

1. Shoalhaven 2027 Community Strategic Plan (CSP)
2. Delivery Program Goals
3. Operational Plan Actions, Financials, Fees & Charges, Budget
4. Council's Resourcing Strategy

The Integrated Plan is developed in conjunction with State and Regional Plans, the Resourcing Strategy, other supporting plans, Councillors, staff and community. Monitoring and adjustment is carried out through quarterly and annual reports.

The community plan for the Shoalhaven over the next ten years is captured in the Community Strategic Plan (CSP). While Council will use the plan to develop its Goals and Actions, not everything in the plan is Council's responsibility. Other government and non-government organisations can and will use the CSP to align their activities to meet Shoalhaven's needs.

The Resourcing Strategy is critical to the successful development and completion of the Plan's Actions. It is used to address the budget needs through the Long Term Financial Plan, assets required through the Asset Plan and Council's workforce through the workforce plan.

The Delivery Program Goals are Council's response to the Community Strategic Plan.

The Goals are developed in conjunction with its Resourcing Strategy, supporting plans and legislation.

The one-year Operational Plan Actions details what will be completed over the next 12 months to address the Delivery Program Goals. Budget, staff resources and assets are allocated to ensure the Actions are undertaken.

Due to the postponement of the local government elections, the current Delivery Program will be extended by an additional year to June 2022.

I want a city that has...

Key Themes & Priorities

Each of the key Themes and Priorities that have been identified by the community have been allocated long term goals and one-year actions. These are outlined in the following sections.

Each section explains why the priority is important, what goal has been set and actions that will be taken to meet each goal. Measurements are also outlined to ensure that Council continues to be accountable for the actions and goals that have been set to meet community priorities.

Resilient, Safe and Inclusive Communities

- 1.1 Build inclusive, safe and connected communities
- 1.2 Activate communities through arts, culture and events
- 1.3 Support active, healthy liveable communities

Sustainable, Liveable Environments

- 2.1 Improve and maintain road and transport infrastructure
- 2.2 Plan and manage appropriate and sustainable development
- 2.3 Protect and showcase the natural environment

Prosperous Communities

- 3.1 Maintain and grow a robust economy with vibrant towns and villages

Responsible Governance

- 4.1 Reliable services that meet daily community needs
- 4.2 Provide advocacy and transparent leadership through effective government and administration
- 4.3 Inform and engage with the community about the decisions that affect their lives

How to Read this Plan

Community Strategic Plan Code

Community Strategic Plan Goal

Council Department Responsible for Action

Priority 1.1

Build inclusive, safe and connected communities

Why is this priority important?

The health of our community members is reliant on and affected by how safe, included and connected they feel within their community. Being connected and feeling included in the lives of others has been proven to increase overall happiness and wellbeing.

How will we know we are making a difference?

- When people feel more connected to their community
- When people feel safer in their neighbourhood
- When Council has improved resilience and readiness capability in emergency management

What will Council focus on over the coming year?

Delivery Program Goal	Responsible Directorate
1.1.01 Undertake to prevent, prepare for, respond to and recover from natural disasters	• All Council
1.1.02 Support communities to become safer and stronger through positive and effective planning, partnerships and programs	• City Lifestyles • City Performance
1.1.03 Develop plans and strategies which help to create an inclusive, caring and accessible community	• City Lifestyles
1.1.04 Provide solid waste and recycling collection, resource recovery and landfilling	• City Services
1.1.05 Develop plans which enable a variety of housing options to be provided for the community and which helps to connect people and places.	• City Futures
1.1.06 Use Council's regulatory powers and government legislation to enhance community safety	• City Development
1.1.07 Continue to maintain and improve emergency service facilities	• City Services

Resilient, safe & inclusive communities

The Shoalhaven community has a higher average age than many other areas in NSW.

An ageing population is a typical feature of coastal locations in NSW, given the high retiree population and the fact that younger people often migrate to other locations for educational or work pursuits. Approximately seven in every 10 Shoalhaven City households are a family, with two in 10 a single

person. Nearly all occupied dwellings in the City are single houses, with most of the population living in detached low-density housing.

Shoalhaven City has a rich Aboriginal cultural heritage, with nearly one in 20 residents identifying as Aboriginal or Torres Strait Islander. These strong links with Aboriginal culture are further reflected in Council's recognition of the strong spiritual ties that the traditional owners continue to have with the land.

Links to State and Regional Plans

NSW Premier's Priorities for Resilient, safe and inclusive communities include:

- Protecting our most vulnerable children
- Increasing permanency for children in out-of-home care
- Reducing domestic violence reoffending
- Reducing recidivism in the prison population
- Reducing homelessness
- Improving service levels in hospitals
- Improving outpatient and community care
- Towards zero suicides

Illawarra Shoalhaven Joint Organisation Strategic Priorities

- Ensure all members of the community have a sense of belonging and the ability to make healthy lifestyle choices.

What's important to the community:

A broad range of issues were identified for this theme including:

- Community safety, such as additional policing especially in the Bay and Basin area
- Support for those struggling with substance abuse
- Activities for youth and young families
- A close and involved community
- An inclusive community
- Improved health care especially for the elderly
- Homelessness and the need for affordable housing
- Increased number of cultural events and improvements to Shoalhaven's arts
- Improvements to our parks and reserves
- Focus on better sporting facilities
- Better facilities for children and youth
- Provide more dog friendly areas

Priority 1.1

Build inclusive, safe and connected communities

Why is this priority important?

The health of our community members is reliant on and affected by how safe, included and connected they feel within their community. Being connected and feeling included in the lives of others has been proven to increase overall happiness and wellbeing.

How will we know we are making a difference?

- When people feel more connected to their community
- When people feel safer in their neighbourhood
- When Council has improved resilience and readiness capability in emergency management

What will Council focus on over the coming year?

Sustainable, liveable environments

Shoalhaven's significant environmental qualities stem from its extensive natural areas, vast biodiversity and relatively small area of settlement.

The natural and rural landscapes form part of the cultural heritage and 'sense of connection' for the community and are an important tourism

and economic assets. Nowra, regarded as the major regional centre of Shoalhaven, is located on the banks of the Shoalhaven River, providing administrative, commercial and other high order services for the area. Ulladulla and the Vincentia district (Bay and Basin area) are Shoalhaven's major towns. Shoalhaven's major settlement areas are Nowra-Bomaderry, Milton-Ulladulla and the Bay and Basin area.

Priority 2.1

Improve and maintain our road and transport infrastructure

Why is this priority important?

Having the ability to move around the Shoalhaven, connect for personal and business reasons is essential in creating a vibrant, connected and economically viable Shoalhaven.

Improving our transport links and road networks enable the residents and visitors to easily move around the Shoalhaven complete business, social activities, family commitments and much more.

How will we know we are making a difference?

- When community satisfaction with roads is increasing
- When the number of complaints regarding road-condition is falling
- When the total length of pathways is increasing
- When our backlog of repair and renewal of community assets is falling

What will Council focus on over the coming year?

Priority 4.3

Inform and engage with the community about the decisions that affect their lives

Why is this priority important?

All levels of government must engage with and inform community about the decisions that are being made. Engagement and consultation is legislated within the IP&R framework, planning legislation and many other aspects of Council's business. It is an essential component of most Council projects and enables our community to provide us with their needs and wants, so that Council can better meet community expectations.

How will we know we are making a difference?

- When community satisfaction with Council's engagement is improving
- When the community believes, they have had the opportunity to be informed and engaged

What will Council focus on over the coming year?

2021/22

Revenue Policy

Shoalhaven City Council's Revenue Policy is developed in response to its legislative reporting requirements under the Local Government Act 1993. The Policy provides the community with an indication of the type and breakdown of revenue sources available to Council to support its Operational Plan.

Council's Revenue Policy comprises the following elements:

1. Estimated income and expenditure
2. Ordinary rates and special rates
3. Pricing methodology
4. Proposed borrowings

Estimated Income and Expenditure 2021/22

In 2010, the Independent Pricing and Regulatory Tribunal of New South Wales (IPART) was delegated responsibility for determining the allowable annual increase in local government general rates income.

Shoalhaven City Council was declared as a Fit for the Future Council by the NSW State Government in 2015. This was based on a Council submission provided to the Office of Local Government (OLG) and IPART which outlined several actions Council would undertake to improve its financial sustainability.

To ensure consistency with our Long Term Financial Plan (LTFP) and to meet our Fit for the Future benchmarks, Council successfully applied to IPART, in February 2018, for an SRV for each of the three financial years: 2018/19; 2019/20 and 2020/21.

A Special Rates Variation was approved in order to allow the council to improve its financial sustainability, fund capital expenditure, reduce its infrastructure backlog, reduce its operating deficit and fund asset renewal and maintenance.

As per IPART determination, in 2020/2021 Shoalhaven City Council could increase rates by maximum 5% (2.6% rate peg plus 2.4% increase in addition to the rate peg as per approved SRV). However, considering unprecedented times of COVID-19 pandemic, Shoalhaven City Council did not take up full SRV and increased rates by 2.6% (rate peg only) in 2020/21. According to the Local Government Act 1993, Council has up to 10 years to catch-up on the Special Rates Variation increase that wasn't taken up last financial year.

Considering the ongoing impact of the COVID-19 pandemic, Shoalhaven City Council will not take up any SRV catch-up from last year and will instead increase rates by 2.0% (rate peg only) in 2021/22.

The increase in rates revenue will allow the Council to maintain its financial sustainability and to generate sufficient revenue to deliver the services and infrastructure that meet community needs and expectations.

As permitted under the section 511 of the Local Government Act 1993, the Council will catch-up on the shortfall in general income in the following years.

The major assumptions included in the 2021/22 estimates are:

Consumer Price Index (CPI)	0.26% (mid-point of RBA inflation target range)

Rating Structure - ordinary rates and special rates

The Local Government Act 1993 makes provision for rates to comprise:

- An ad valorem amount (which may be subject to a minimum rate amount) or
- A base amount to which an ad valorem amount is added

The base charge amount is a standard amount which is applied to all properties.

The ad valorem charge is a distribution of the residual rating income, calculated as a proportion of the properties land valuation. The land valuation calculated for each property is determined by the Valuer General's Department and is reviewed every three years.

Ordinary rates

Council has resolved to maintain the 2020/21 rating structure, comprising both base and ad valorem amounts. This is a common rating structure that is used to provide the fairest and most equitable distribution of the rate levy across the LGA.

The rating structure has a flat base amount of \$668, with the exception of Residential – Non-Urban category that has a base of \$47 and Business – Ordinary category that does not have a base amount and is subject to an ad valorem rate in the dollar levied on the value of the property supplied by the Valuer General of NSW. Business – Ordinary rates are levied on parcels of land held by the Crown and categorised as Business Permit (i.e., Crown leases such as permissive occupancies, jetties, slipways, moorings, pastoral leases, etc.).

The following rates are proposed for 2021/22 in respect of each category of ordinary rate levied by Council:

- **Residential:** Will be levied a base amount of \$668 and an ad valorem rate of 0.18112 cents in the \$ for Ordinary Residential Rates and a base amount of \$47 and an ad valorem of 0.18112 cents in the \$ for Residential-Non-Urban Rates.
- **Farmland:** The rates for both Farmland and Dairy Farmland will be levied a base amount of \$668 and an ad valorem rate of 0.1501 and 0.07640 cents in the \$, respectively.
- **Business:** All sub-categories will utilise the same base amount of \$668, excluding Business Permit (Ordinary – Business category), where no base amount is applied given the type of properties within this category. However, different ad valorem rates have been applied, depending upon the level of service provided in each area. An ad valorem rate for Nowra CBD business rates is 0.56070 cents in the \$, Business Permit 0.37282 and Business Commercial Industrial 0.26240.

Special Rate Variations

As shown in the summary below, Council continues to improve its operational efficiencies and in 2021/22 \$1.2million of SRV was reallocated from funding Council operations to Roads Renewal Program. This shift in allocation is in line with the Council's IPART SRV Application.

Council Special Rates

Special Category Rates – Sussex Inlet CBD Promotion

Council has maintained a special category rate for 2021/22 for the promotion of Sussex Inlet, pursuant to Section 495 of the Local Government Act 1993. The structure of this special rate is an ad valorem rate only, levied on the land value of each rateable property, as supplied by the Valuer General of NSW. The Sussex Inlet special rate applies to all properties within the Sussex Inlet area that are categorised as Business for rating purposes.

Resolving Small Lot Rural Subdivisions (Paper Subdivisions)

Council also levies a number of special rates, pursuant to Section 495 of the Local Government Act 1993, on all small lot rural subdivisions (Residential Non Urban rating category), which in Council's opinion will benefit from rezoning investigations, road design and construction works.

In respect of each special rate levied by Council, the following are proposed as the special rates for 2021/22:

Sub-Category	No. of Rateable Properties	Land Value	Average Land Value	Ad Valorem (c in \$)	Base Rate Amount (\$)	Base Rate %age	Ad Valorem Yield (\$)	Base Rate Yield (\$)	Total Rate Yield (\$)

Stormwater Management Service Charge

Council introduced a Stormwater Management Service Charge in 2006/07, pursuant to Section 501 of the Local Government Act 1993. The charge for 2021/22 will remain at \$25.00 per eligible residential or business rate assessment. The charge per strata assessment for the 2021/22 rating period will remain at \$12.50.

The Stormwater Management will be spent on the following projects:

Subsidies In Foregone Rental

Subsidies by way of foregone rental income for community properties, based on current arrangements put in place by Council, are anticipated for the 2021/22 financial year as follows:

Type of organisation/ rental	Number	Amount
Community Groups	56	\$755,000
Men's Shed	8	\$16,500
Golf club	2	\$64,615
Preschool/Childcare Playgroups	14	\$487,700
Sports Groups	3	\$20,400
Meals on Wheels	6	\$45,100
Telcos	14	\$40,920
Outdoor dining	60	\$36,000
		\$1,466,235

Basis of assessment: The above figures are based on a desktop review, taking a conservative approach: rounding down, pro rata for leases less than the full year, market rental valuations on hand irrespective of date, estimates by comparison and reporting subsidies/donations in Council minutes.

Rate Relief for Drought-Affected Farmers

In September 2018, Council gave public notice of proposed financial assistance measures for drought affected farmers and the following measures were adopted:

- Council amended its Hardship Policy to allow all Farmland rated property owners experiencing financial hardship due to the drought to make an application to have their rates payment deferred to the 2020/21 financial year on submission of a Financial Hardship Application - Farmland form

- Suspension of the accrual of interest on overdue rates payments from Farmland and Farmland - Dairy Farmers assessments
- Support for any application for Tractor and B-Double access to local roads.
- Waiver of fees for commercial quantity loads (over 2m3) of Council's pasteurised garden waste product, where and when available
- Acceptance of sufficiently decontaminated silage wrap, at no charge, at all 10 waste depots (not just West Nowra and Ulladulla) to minimise travel distance for farmers

It was proposed that the City be defined as drought-affected while its parishes are identified by the Department of Primary Industries' Combined Drought Indicator (CDI) as being in the Given the long-term effect of drought conditions in the City, Council proposes to continue its drought assistance measures.

Interest on Overdue Rates & Charges

Council's current policy is to adopt the maximum permissible interest rate for each year on overdue rates, charged on a simple interest basis.

However, in response to the financial impacts faced by the community as a result of the COVID-19 Pandemic and in accordance with section 566(3) of the Act, it has been determined that the rate of interest payable on overdue rates and charges for the period 1 July 2021 to 30 June 2022 (inclusive) will be 1.5% per annum.

Interest charges will be waived for the ratepayers that experience financial hardship and apply for the financial assistance under the Council Hardship Policy.

Pricing Methodology

Under the principle of “user pays”, fees are introduced to offset the cost-of-service provision or, in the case of commercial activities, to realise a reasonable rate of return on assets employed by Council to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

Council has given due consideration to the following factors in determining the appropriate price for each fee

- Cost of providing the service
- Whether the goods or services are supplied on a commercial basis
- Importance of the service to the community
- Capacity of the user to pay
- Impact of the activity on public amenity
- Competitive market prices
- Prices dictated by legislation

In accordance with Section 608 of the Local Government Act 1993, Shoalhaven City Council determines fees and charges based on the following pricing methodologies:

Full cost recovery - Recovery of all direct and overhead costs associated with providing a service. This includes employee benefits, other direct expenses and overheads.

The proposed loan program for 2021/22 is:

General Fund Projects	2021/22	Funding Source
Bioelektra Resource Recovery Facility	\$7,000,000	Waste Fund
Material Recovery Facility (will not be required if BLER Grant application is successful)	\$8,000,000	Waste Fund
Bomaderry Basketball Stadium	\$1,250,000	General Fund
Caravan Park Development	\$5,264,300	Additional Revenue from Tourist Parks
Local Roads Renewal	\$2,500,000	General Fund
Public Amenities (Francis Ryan Reserve and Hyams Beach Reserve)	\$1,350,000	General Fund
Total	\$25,364,300	
Additional provision for borrowings if grant applications are successful		
Matching Funding for potential grants (\$6 million for Sanctuary Point Library and \$1.35 million for Ulladulla Skate Park)*	\$7,350,000	General Fund
Total	\$32,714,300	
Total General Fund Loans	\$12,450,000	

*Council pursues various grant opportunities and additional borrowings might be required to fund Council contribution to the grant funded projects.

Subsidised / Partial cost recovery - Council recovers less than full cost for reasons of community obligation, legislated limits on charging, etc.

- 1. Subsidised / Partial cost recovery** - Council recovers less than full cost for reasons of community obligation, legislated limits on charging, etc.
- 2. Rate of return** - Council recovers the full cost of providing the service/activity plus a profit margin.
- 3. Market** - Price of the service determined by investigating alternative prices of surrounding service providers.
- 4. Statutory** - Price of the service is determined by legislation and may or may not recover full cost.

Proposed Borrowings

Council’s borrowings are governed by the provisions of the Local Government Act 1993 and the Local Government (General) Regulation 2005.

These borrowings will be secured by the usual method of a mortgage over Council’s income. Competitive quotations are obtained from major banks and financial institutions with the aim of securing a low interest rate.

Donations, Sponsorships and Subsidies

Council must comply with the provisions of Section 356 of the Local Government Act, 1993 in respect of donations, sponsorships and subsidies to groups or individuals.

The proposed donations, sponsorships and subsidies for the Operational Plan 2021/22 are shown in the following table.

This listing also highlights proposed commitments in terms of specific programs, e.g., festival funding, cultural activities and Holiday Haven programs, which

are included in Council’s budget for the 2021/22 financial year. While public notice is not required (refer to Section 356(3)) for these particular programs, an indicative total budget is provided within the listing.

It should be noted, however, that Council may resolve to amend or adjust the budget for any one, or all, of these items as part of Quarterly Budget Reviews. Any payment made to an individual from the uncommitted allocation will be in accordance with Section 356 of the Local Government Act.

General Fund Budget

Changing restrictions and unexpected business disruption that is being experienced due to the COVID-19 pandemic response might have significant financial consequences on the proposed 2021/22 Budget.

The financial impact of this situation is monitored, along with options to ensure Council continues to be managed in a fiscally responsible manner and any necessary adjustments to the 2021/22 Budget will be provided for consideration through the quarterly budget review process or sooner should the circumstances warrant.

Key Performance Indicators Statement

Catastrophic bushfires followed by floods and now the COVID-19 pandemic significantly impacted next year's financial position of the Council. As a result, some Key Performance Indicators are expected

to remain below the benchmarks. However, as per communications received from the OLG, they acknowledge the challenges councils face during COVID-19 crisis and indicated easing adherence to the Fit for the Future indicators during these unprecedented times.

Available Working Capital

Available Working Capital is a measure of Council's ability to meet short-term financial shocks, whether they be reductions in anticipated revenues or unplanned additional expenditure.

The Available Working Capital for Shoalhaven City Council for the next financial year is estimated below:

	2021/22
Working Capital Calculation	\$'000
Current Assets	
Cash and cash equivalents	11,939
Investments	30,351
Receivables	12,986
Non-current assets	
Investments	4,326
Current liabilities	
Payables	(13,413)
Non-current liabilities	
Payables	0
Net Assets	46,189
Adjustments for Restrictions	
External Cash Restrictions	(24,135)
Internal Cash Restrictions	(18,897)
Restrictions in receivables	
Grant receivables	(4,321)
Domestic waste not received	(900)
Restrictions in payables	
Domestic Waste and Recycling Contract	1,000
Deposits, retentions and bonds	3,018
Restricted capital creditors at YE	6,500
Estimated Working Capital Available	8,454

In determining the optimal level at which Council should be aiming to maintain its Available Working Capital balance in its long term financial planning, a common practice of Council is to set a benchmark that equals or exceeds the recorded asset balances for debtors (excluding restricted debtors) and inventory (including real estate held for sale). An analysis of Council's June 2022 Forecasted Balance Sheet has assessed that benchmark as being \$8 million – meaning that Council is continuing to maintain a healthy Working Capital Balance.

Capital Works

2021/2030 - Working Document

Subject to annual confirmation

10 year Capital Works Program

What do the next 10 years look like?

Over the next ten years, Council is planning to:

- Invest more into existing infrastructure, focusing on replacing and renewing existing infrastructure that is in poor condition
- Address current and emerging community needs through the provision of general infrastructure programs and projects, and
- Deliver key strategic projects that will benefit current and future generations, subject to State and Federal Government Funding support, as well as borrowings.

It is important to highlight that there are many variables that can affect Council's priorities over the next decade, including:

- Legislation changes
- Shifts in community needs
- A changing natural environment including natural disasters, and
- New (or revised) strategies, plans and policies adopted by Council.

In order to assist Council communicate and manage such a complex capital investment Council produces an indicative 10 Year Capital List. The key word here being indicative. Council only allocates an annual budget, not a 10 year budget, so this indicative list is likely to evolve with projects being added and deleted and reprioritised over time. The important role that the indicative 10-year plan plays is that it allows Council to plan strategically and be open and transparent about its longer-term planning.

Competing priorities when considering what projects and programs should be delivered include:

- Existing assets in need of replacement or upgraded to meet future demands
- Commitments and actions relating to existing Council strategies and plans
- The demand for new infrastructure to service growth and development
- Supporting local business and economic development and tourism to the area
- Being prepared for emergencies including flood and bushfire
- Delivery of developer funded projects, and
- The infrastructure required to support Council's service delivery to the community.

Project Timing

This is a forward planning document and as such, many projects have not been through a detailed design phase which may change the expected timing of delivery. Some projects may have their work re-phased to a later date, while others are bought forward and delivered sooner than expected.

Projects are confirmed through the development and adoption by Council of the Delivery Program and Operational Plan and Budget each financial year.

How to read the document

Capital works projects have been grouped by asset type. Examples include Buildings and Property, Community & Culture or Open Space, Sport & Recreation. Each capital works project is listed with the year the project is programmed to be undertaken. To assist in finding a project of interest use the "Ctrl F" in the PDF electronic version of this plan with the key Road name or Project name. Alternately our Customer Service team will be more than happy to search the list for you and discuss over the phone.
