Construction of Chisolm's Creek Bridge – Bundewallah

Dear resident,

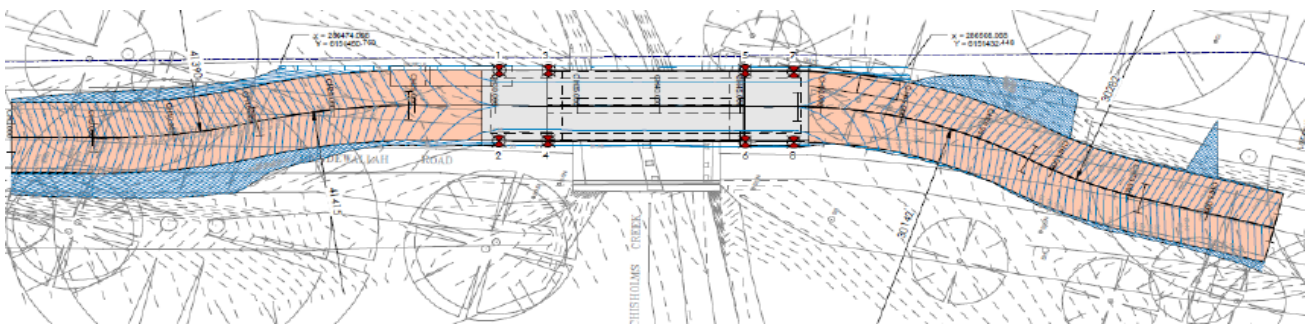

We have been engaged by Shoalhaven City Council for the contract to construct the new bridge over Chisolm's Creek on Bundewallah Road, Bundewallah.

As a result, and while formal contractual issues are being finalised, we wish to advise you that we intend to start construction works approximately three weeks' from now.

Works are due to be completed by January 2023 however this is very much dependant on favourable weather conditions.

There will be local traffic controls initiated as the construction zone is established that will see the narrowing of the existing bridge to allow the new bridge to be built close beside the existing structure. There will also be compound established on the Berry side of the construction zone.

Please be patient, drive carefully and to the conditions as we look to ensure the safety of everyone passing through and workers working on the site.

If you have any queries in relation to the project, I can be contacted below by phone or by email.

Yours Faithfully,

Trevor Delaney
