Construction of Chisolm's Creek Bridge – Bundewallah

Dear resident,

Thank you for your continued cooperation over the duration of the project.

Recently we shotcreted the western upstream drain, created dish drains on the other 3 sides of the road and installed rock spreaders in preparation for the first seal coat.

If everything goes to plan (and no rain), **we will need to close the road for approx. 1 ½ hours from 8.30am this coming Tuesday morning 9th May until around 11am.**

Unfortunately, it needs to be closed that early to fit in with the contractors schedule.

Once this is complete, there will be a period of time for the seal to cure and then we will need to close the road again for the topcoat of asphalt/hot mix. I will advise when this is planned a little later.

If you have any queries in relation to the project, I can be contacted below by phone or by email.

Council has also created a project page for you to follow and have asked that I pass this on to you.
