Construction of Chisolm's Creek Bridge – Bundewallah

Dear resident,

Thank you for your continued cooperation over the duration of the project.

Recently we laid a primer seal on the road in preparation for the final asphaltting.

If everything goes to plan (and no significant rain), **we will need to close the road for approx. 4 ½ hours from around 9.15am this coming Thursday morning 18th May until around 1.30-2pm to lay the asphalt topcoat. Note that there will be intermittent traffic hold-ups prior to 9.15am and after 2pm as we move the heavy equipment in and out of the work zone.**

Once this is complete, there should be no need to fully close the road again however there will be some minor hold-ups as we install guard rails, hydro-mulch the unsealed roadsides, drains and banks and finally some line marking and additional signage and guideposts.

If you have any queries in relation to the project, I can be contacted below by phone or by email. Council has also created a project page for you to follow and have asked that I pass this on to you.
