Dear Resident

Temporary full road closure Mt Scanzi Road, landslip repairs

Landslip repair work along Mt Scanzi Road is about to commence.

The landslip repair contractor Symal, has confirmed that construction of the first of eight (8) landslip repairs will commence on **Wednesday 13 September**. Work will then continue onto other site along Mt Scanzi Rd until all eight landslip sites are completed by the end of December 2023

Due to site constraints and for safety reasons, a full road closure at each landslip site will be required between the hours of 7.30am to 4.30pm Monday to Friday. Vehicle and pedestrian access during this time will not be possible. However, full access will be available outside of these hours and on weekends and on public holidays.

Alternate access will be available from either end of Mt Scanzi Road.

In case of a life-threatening emergency situation, immediate access will be provided to emergency vehicles.

Details of specific road closures are detailed on page two of this letter. A plan showing location details is shown on page 3.

Council appreciates your patience and understanding throughout the construction period noting the road closures will be inconvenient for many.

Keeping up to date

To allow residents to keep up to date on the work, a project page / website was created by Council.
