

## SHOALHAVEN SPECIES LIST FOR BERRY

| Scientific Name                                        | Common Name             | Height (m) | Width (m) | Native / Exotic | Landscape Suitability |
|--------------------------------------------------------|-------------------------|------------|-----------|-----------------|-----------------------|
| <b>NATIVE / CULTIVAR</b>                               |                         |            |           |                 |                       |
| <b>Trees</b>                                           |                         |            |           |                 |                       |
| <i>Acacia binervata</i>                                | Two-Veined Hickory      | to 15      | 2 - 4     | Local           | S, G, OS              |
| <i>Acacia melanoxylon</i>                              | Blackwood               | 6 - 30     |           | Local           | S, G (large), OS      |
| <i>Acmena smithii</i>                                  | Lilly Pilly             | 3 - 8      | 3 - 5     | Local           | G                     |
| <i>Allocasuarina littoralis</i>                        | Black Sheoak            | 8          | 4         | Local           | S, G, OS, R           |
| <i>Alphitonia excelsa</i>                              | Red Ash                 | up to 21   |           | Local           | S, OS, G (large)      |
| <i>Angophora floribunda</i>                            | Rough-Barked Apple      | < 30       | 4 - 10    | Local           | OS, R, G (large), S   |
| <i>Backhousia myrtifolia</i>                           | Grey Myrtle             | 3 - 4      | 1.5 - 3   | Local           | G                     |
| <i>Brachychiton acerifolius</i>                        | Illawarra Flame Tree    | to 35      |           | Native          | OS, R                 |
| <i>Callistemon 'Harkness'</i>                          |                         | 6          |           | Native cultivar | G, S, OS              |
| <i>Callistemon 'Kings Park Special' (KPS)</i>          | Pine-Leaf Bottlebrush   | 4          | 5         | Native cultivar | G, S, OS              |
| <i>Callistemon salignus</i>                            | Willow Bottlebrush      | 3 - 10     |           | Native          | G, S, OS              |
| <i>Callistemon viminalis</i> var.                      | Weeping Bottlebrush     | to 8       |           | Native cultivar | G, S, OS              |
| <i>Casuarina cunninghamiana</i>                        | River Oak               | 15 - 35    |           | Local           | OS, R, G              |
| <i>Ceratopetalum apetalum</i>                          | Coachwood               | 6          |           | Local           | OS, R, G              |
| <i>Claoxylon australe</i>                              | Brittlewood             | 9          |           | Local           | G, S, OS              |
| <i>Clerodendrum tomentosum</i> var. <i>tommentosum</i> | Hairy Clerodendrum      | 1 - 10     |           | Local           | G, S, OS              |
| <i>Cryptocarya glaucescens</i>                         | Jackwood                | 15 - 35    |           | Local           | G, S, OS              |
| <i>Ehretia acuminata</i>                               | Ehretia                 | to 30      |           | Local           | OS, R, G              |
| <i>Eucalyptus punctata</i> subsp. <i>punctata</i>      | Grey Gum                | to 35      |           | Local           | S, G (large), OS, R   |
| <i>Eucalyptus tereticornis</i>                         | Forest Red Gum          | to 50      |           | Local           | OS, R, G (large), S   |
| <i>Eucalyptus agglomerata</i>                          | Blue-leaved Stringybark | to 40      |           | Local           | OS, R, G (large)      |
| <i>Eucalyptus botryoides</i>                           | Bangalay                | 10 - 20    | 6 - 8     | Local           | S, G (large), OS      |
| <i>Eucalyptus saligna</i>                              | Sydney Blue Gum         | to 50      |           | Local           | OS, R, G (large)      |
| <i>Ficus rubiginosa</i> f. <i>rubiginosa</i>           | Port Jackson Fig        | 5 - 15     | 5 - 15    | Native          | S, G (large), OS      |
| <i>Glochidion ferdinandi</i>                           | Cheese Tree             | to 15      | 4 - 8     | Local           | G                     |
| <i>Melaleuca linarifolia</i>                           | Paperbark               | to 10      |           | Local           | G, OS                 |
| <i>Podocarpus elatus</i>                               | Illawarra Plum          | 10 - 15    |           | Local           | OS, G                 |
| <i>Syncarpia glomulifera</i>                           | Turpentine              | 15 - 25    | 5 - 8     | Local           | S, G (large), OS      |
| <i>Synoum glandulosum</i>                              | Scentless Rosewood      | to 7       |           | Local           | S, G, OS              |
