

Stage 2

Stage 2

Lesson 1

Investigate the properties of water

What can water do? See how it can push, flow down hill and fill spaces.

How does water change?

1 Liquid to Solid

Fill an ice cube tray with water and place it in the freezer section of a fridge.

Draw what the water looks like now _____

2 Liquid to Gas

Your teacher will boil water in a jug. What is coming out of the jug? Is it hot?

The name for this is E _____

3 Gas to liquid

Your teacher will put a saucepan lid over the steam. What can you see on the inside of the saucepan lid when it is taken off?

Draw what you see on the lid of the saucepan _____

The name for this is C _____

Stage 2

Lesson 2

Sheet 1

Friends of Tapstar follow the water cycle

Cut out pictures and place on the water cycle drawing

Friends of Tapstar follow the water cycle

- 1 Paste or draw pictures of the rain, steam ocean and river on the water cycle below:

- 2 Now use this drawing to help you make a list of the ways that the water cycle effects our everyday lives and draw arrows to show how water travels through the cycle

Stage 2

Lesson 5

As a Water Inspector Prevent Wastage of Water in the School Environment

Work in groups to do a water survey at your school.

You need to walk around the school looking carefully at how water is used in the school. You will need to list any problems, such as leaking taps or running bubblers, single flush toilets or no mulch on the garden. Find the school water meter.

Please record the number of problems [for example the number of leaking taps that you see]

List the problems you find:

Record the number of problems you find:

Report back your findings to the whole class.

Role play activity cards.

1

Show the rest of the class how we can save water when brushing your teeth.

2

Show the rest of the class how we can save water in the shower.

Role play activity cards.

3

Show the rest of the class how we can save water when washing our clothes.

4

Show the rest of the class how we can save water in the Garden when using the hose

Stop wasting water song

When in the laundry you've got to get it right
Use a front loader it's being very bright
Next time you've only got a half a load
Just wait till you've got more dirty clothes

Think it oh, oh ver
Think it oh, oh ver

Stop wasting water
Before it all runs out
Stop wasting water
Before it all runs out

Think it oh, oh ver
Think it oh, oh ver

When cleaning driveways you should never use a hose
Just use the broom or rake you know how it goes
Next time you need to wash your motor car
Just use a bucket and wash it on the grass

Think it oh, oh ver
Think it oh, oh ver

When having showers you'd better keep it short.
Brushing your teeth please turn the water off
Next time that you need to use the looooo
1/2 flush for one's and full for two's

Think it oh, oh ver
Think it oh, oh ver

Stop wasting water
Before it all runs out
Stop wasting water
Before it all runs out

Think it oh, oh ver

STOP!

Don't let the Tap Go Drip song

If You want to save water clap your hands
Clap Clap Clap clap
You'll help the environment and the land
Clap Clap Clap clap
Now Only use water when you need it
And don't let the tap go drip drip
And don't let the tap go drip drip drip.

When you brush your teeth turn the Tap off
Turn Turn Turn Turn
Otherwise it will go down the plughole
Turn Turn Turn Turn
Now Only use water when you need it
And don't let the tap go drip drip
And don't let the tap go drip drip drip.

When you have a short shower you'll sing this song
Clap Clap Clap clap
Save water otherwise it will be gone
Clap Clap Clap clap
Now Only use water when you need it
And don't let the tap go drip drip
And don't let the tap go drip drip drip

If You want to save water clap your hands
Clap Clap Clap clap
You'll help the environment and the land
Clap Clap Clap clap
Now Only use water when you need it
And don't let the tap go drip drip
And don't let the tap go drip drip drip

And don't let the tap go drip drip drip.

Stage 2
