1. PURPOSE

Shoalhaven City Council (Council) is committed to ensuring a fair, transparent and accountable process for developers seeking to enter into Planning Agreements to which Council is a party. A Planning Agreement is a planning tool which can be used to negotiate flexible outcomes for a variety of public purposes, whether tied to Section 7.11 contributions or not.

The purpose of this Policy is to set out Council's framework for the preparation and use of Planning Agreements including:

- The instances in which Council may consider entering into a planning agreement;
- The matters generally covered by a planning agreement;
- The form of development contributions which may be sought under a planning agreement;
- The kinds of public benefits which may be negotiated and whether it includes a planning benefit;
- The method of determining the value of public benefits;
- Whether money paid under different planning agreements is to be pooled and progressively applied towards the provision of public benefits that the different agreements relate;
- Details relating to the timing and delivery of the public benefit to be provided;
- Probity measures and the procedures for making an application, negotiating and entering into a planning agreement;
- How Council will assess an application for a Planning Agreement.

2. APPLICATION

This policy applies when a developer seeks to negotiate a Planning Agreement with Council, associated with any Complying Development Certificate (CDC), Development Application (DA) or Planning Proposal (PP). The Planning Agreement could apply to land within the Shoalhaven local government area (including any land owned by the Council), as well as any land outside the Shoalhaven LGA, where Council has entered into a joint Planning Agreement with another council.

This policy will prevail to the extent of any inconsistency with any other policies that would otherwise apply to a Planning Agreement. Whilst this Policy is not legally binding, it is intended that Council and any person a party to a Planning Agreement will follow this Policy to the fullest extent possible.

3. OBJECTIVES

This Policy aims to:

- Ensure a consistent approach to the negotiation and preparation of all planning agreements;
- Ensure greater probity and establish a probity framework for the negotiation, preparation exhibition and implementation of planning agreements.
- Supplement, or where appropriate, replace the application of section 7.11 of the Act;
- Facilitate innovative and flexible approaches to the provision of infrastructure and other public benefits, consistent with Shoalhaven Contributions Plan 2019; and
- Provide stakeholders with a greater involvement in the type, standard and location of public facilities and other public benefits.

4. LEGISLATIVE AND POLICY CONTEXT

A Planning Agreement is a voluntary agreement, entered into by one or more planning authorities and a developer, where that developer seeks to change an environmental planning instrument or who has made, or who proposes to make a DA or an application for a CDC, where the following is required to be used for or applied towards a public purpose:

- Dedication of land.
- A monetary contribution.
- Material public benefit
- A combination of some or all of the above.

Part 7, Subdivision 2 of the *Environmental Planning and Assessment Act 1979* (EP&A Act) and Division 1A of the *Environmental Planning and Assessment Regulation 2000* (EP&A Regulations), prescribes the procedural framework relating to the preparation of planning agreements in more detail.

5. GUIDING PRINCIPLES OF PLANNING AGREEMENTS

In July 2005, the NSW Government issued the [Development Contributions Practice Note](#). The Practice Note identifies a number of key guidelines and safeguards in the application of Planning Agreements which have been expanded upon below.

Fundamental Principles governing the use of Planning Agreements

Council's use of Planning Agreements will be governed by the following principles:

- Planning decision may not be bought and sold through Planning Agreements
- Development that is unacceptable on planning grounds will not be permitted because of planning benefits offered by developers that do not make the development acceptable in planning terms;

- The Council will not allow Planning Agreements to improperly fetter the exercise of its functions under the Act, Regulations or any other Act or law;
- The Council will not use Planning Agreements for any purpose other than a proper planning purpose;
- The Council will not seek benefits under a Planning Agreement that are unrelated to particular development;
- The Council will not allow the interests of individuals or interest groups to outweigh the public interest when considering a proposed Planning Agreement;
- The Council will not improperly rely on its statutory position in order to extract unreasonable public benefits from developers under Planning Agreements; and

Where the Council has a commercial stake in the development subject of an agreement, it will take appropriate steps to ensure that it avoids a conflict of interest between its role as a planning authority and its interest in the development. Council will seek to ensure probity of its processes by ensuring applications involving planning agreements which involve Council land, or development applications made by or on behalf of Council, are assessed by an independent third party.

Acceptability Test to be applied to all Planning Agreements

When considering entering into a Planning Agreement, Council will apply the following test in order to assess the desirability of the possible outcome of a proposed Planning Agreement:

- Is the proposed Planning Agreement directed towards a proper and legitimate planning purpose having regard to its statutory planning controls and other adopted planning policies and the circumstances of the case?
- Does the Planning Agreement result in a public benefit?
- Does the Planning Agreement provide for a reasonable means of achieving the relevant purpose?
- Can the Planning Agreement be taken into consideration in the assessment of the relevant planning proposal or development application?
- Will the Planning Agreement produce outcomes that meet the general values and expectations of the community and protect the overall public interest?
- Does the Planning Agreement promote Council's strategic objectives in relation to the use of Planning Agreements?
- Does the Planning Agreement conform to the fundamental principles governing the Councils use of Planning Agreements?
- Are there any relevant circumstances that may operate to preclude Council from entering into the proposed Planning Agreement?

Matters Council May Consider

The matters that Council may consider in any negotiations for a Planning Agreement include whether:

- The demands created by the development for new public infrastructure, amenities or services are addressed;

- The facilities and/or services to be provided meet the planning and strategic objectives of Council;
- Mitigation of the impact of development is addressed;
- Recurrent funding of public facilities is required;
- Past deficiencies in infrastructure provision that would otherwise prevent a development from occurring are addressed;
- Monitoring the planning impacts of development is required;
- Compensation for the loss of, or damage to, a public amenity, service, resource or asset caused by the developer through its replacement, substitution, repair or regeneration is provided for.
- Planning benefits for the wider community accrue from the Planning Agreement; and
- Any initial or ongoing costs are designated as Council’s responsibility.

6. THE PLANNING AGREEMENT PREPARATION AND EXECUTION PROCESS

The Planning Agreement process, from start to execution, consists of 7 key steps as outlined in **Figure 1** and explained below.

The negotiation of Planning Agreements can be complex, and a number of the steps below may need to be repeated, including negotiation and public exhibition.

Figure 1: Summary of Planning Agreement Process Steps

Step 1 – Initial Planning Agreement discussion and negotiation with Council

Prior to submitting a formal request for a Planning Agreement with Council the applicant must meet with Council's Development Contributions Coordinator (and other relevant staff) to:

- Discuss Council's preliminary expectations for a Planning Agreement, understand background information and ensure the proposal meets Council's requirements;
- Demonstrate that the relevant assessment criteria can be satisfied;
- Discuss the approval process.
- Discuss whether the proposed Planning Agreement is relevant to the DA, CDC or PP (i.e. directed towards appropriate and legitimate planning purposes) and whether it could be considered in connection with the application/proposal. A request to enter into a Planning Agreement will not be accepted if it is not associated with a Complying Development Application (CDC), Development Application (DA) or Planning Proposal (PP), and
- Determine the proper planning weight to be given to the proposed Planning Agreement and the public benefits being offered under the proposed terms.
- Discuss whether the proposal meets Council's planning policy objectives, including this Policy, the Shoalhaven Contributions Plan 2019 and other Council policies, procedures and technical specifications (as relevant).
- Discuss whether the proposed Planning Agreement meets the requirements of Council's Capital Works program.
- Determine whether the Planning Agreement seeks to justify a dispensation from an applicable local environmental plan (LEP) development standard/s under clause 4.6 of the LEP. A Planning Agreement can only be used for this purpose if Council is of the opinion that the subject matter of the proposed Planning Agreement addresses the matters specifically required to be addressed under that clause in relation to the dispensation sought.

Through this initial step the key issues associated with the proposal will be discussed, the parties will decide whether to negotiate a Planning Agreement and if favourable, the negotiations will commence.

Whilst Development Assessment Planners may be involved in preliminary discussions associated with a Planning Agreement, for probity, there is a need for the separation of responsibilities. As such, Development Assessment Planners are not to be involved in the negotiation of Planning Agreements.

Council is not under any obligations to enter into a Planning Agreement.

The negotiation of a Planning Agreement will generally involve the following steps:

- The parties will appoint a person to represent them in the negotiations;
- The parties will appoint a third person to attend and take minutes of all negotiations;
- The parties will decide whether to appoint an independent person to facilitate or otherwise participate in the negotiations or aspects of it;
- The parties will identify the key issues for negotiation and undertake negotiations;

- If ‘in principle’ agreement is reached, Step 2 commences.

Step 2 – Submit a Planning Agreement Application

Once each party has a real understanding of the proposal and an agreement has been reached at Step 1, the developer can then make the relevant application [[Insert Hyperlink to Form](#)] to Council accompanied by a written offer to enter into a Planning Agreement, with the specifics of the agreement set out in detail.

The formal request is to be complete and include the developer’s details. Where the developer is not the owner of land subject to the Planning Agreement, the landowner must provide owners consent. The owner will also be required to become a party to the Planning Agreement.

The formal request must also include the following mandatory requirements as per Section 7.4(3) of the EP&A Act:

- A description of the land to which the agreement relates, including the legal description;
- A description of:
 - the change to the environmental planning instrument to which the agreement applies, or
 - the development to which the agreement applies,
- The nature and extent of the provision to be made by the developer under the agreement, the time or times by which the provision is to be made and the manner by which the provision is to be made. This includes the public benefits being offered under the terms of the Planning Agreement.
- In the case of development, whether the agreement excludes (wholly or in part) or does not exclude the application of Section 7.11 to the development. If the agreement does not exclude the application of Section 7.11 to the development, whether benefits under the agreement are or are not to be taken into consideration in determining a development contribution under Section 7.11.

The parties will undertake further negotiations on the specific terms of the proposed Planning Agreement as required until a consensus is reached.

At this stage, all WIK Agreement Applications will be considered by the Contributions Panel (panel of relevant Council staff).

Step 3 – Report to Council

The outcomes of the negotiations and the assessment of the written offer to enter into a Planning Agreement offer will be reported to Council to seek a formal resolution to prepare a draft Planning Agreement for public exhibition, except in the following circumstances:

- Where the Planning Agreement would be in a template format, and
- The contributions that will be required:
 - Are a standard amount of monetary contributions or an amount of monetary contributions that can be easily calculated using a standard rate, or
 - Consists of work and/or dedication land that are listed in Shoalhaven Contributions Plan 2019 and s7.11 contributions are not excluded, or

- Consists of work and/or dedication of land that are listed in Shoalhaven Contributions Plan 2019 and s7.11 is excluded, but only in relation to s7.11 which are for the same category of infrastructure as the works and land to be provided under the Planning Agreement, and
- The Planning Agreement does not involve credit or refund arrangements, or has credit or refund arrangements which are set out in template format.

If as a result of negotiations, additional or different provisions or credit arrangements are required to be included, then the Planning Agreement would need to be reported to the Council before it is entered into.

In relation to Planning Agreements that are to be reported to Council in Step 3, Council at this may stage resolve to delegate authority to Council's Chief Executive Officer, or his delegate, to negotiate, publicly notify, enter into and register the Planning Agreement consistent with the detailed key terms.

Where a Planning Agreement offer is made in conjunction with a PP, where practical, the report to Council will occur in conjunction with the report seeking endorsement for the PP to be submitted to the Department of Planning, Industry and Environment for a Gateway determination.

Step 4 – Preparation of the draft Planning Agreement

Following a formal resolution from Council to proceed with the Planning Agreement, preparation of the draft Planning Agreement can commence in accordance with the Planning Agreement Template at **Attachment 1**. The template reflects the policies and procedures set out in this Policy.

Council will ordinarily prepare the draft Planning Agreement. Refer to Section 7 below regarding costs.

Step 5 – Public Exhibition

In accordance with the EP&A Act, a Planning Agreement must be publicly exhibited for a minimum period of 28 days, however Council may decide to extend this period. Where possible, the public exhibition of the draft planning agreement should occur concurrently with the public exhibition of the associated PP, DA or CDC; however, it is acknowledged that this is not always practicable.

Clause 25(E) of the Regulation requires that an explanatory note, jointly prepared by the parties, must accompany any Planning Agreement that:

- Summarises the objectives, nature and effect of the proposed agreement, amendment or revocation; and
- Contains an assessment of merits of the proposed agreement, amendment or revocation, including the impact (positive or negative) on the public or any relevant section of the public.

Public submissions received during the public exhibition of the Planning Agreement will be considered separately to those relating to the PP, DA or CDC it relates to, however the content of the submissions may require further negotiations to be undertaken. If Council considers that a material change needs to be made to the terms of the Planning Agreement or the PP, DA or CDC after it has been publicly exhibited, Council may re-exhibit the revised planning agreement and the application to which it relates.

Step 6 – Report to Council

In relation to a Planning Agreement that was reported to Council at Step 3 and where Council did not delegate authority to Council's Chief Executive Officer, or his delegate, the outcomes of the exhibition period will then be reported to Council for consideration and to seek a formal resolution to execute the Planning Agreement.

In relation to a Planning Agreement that was not reported to Council at Step 3 or a Planning Agreement that was reported to Council at Step 3 and where Council did delegate authority to Council's Chief Executive Officer, or his delegate; Step 6 does not apply unless there are objections or substantial issues raised as a result of public notification, in which case the Planning Agreement would need to be reported to Council before it is entered into.

Step 7 – Execution of the Planning Agreement

Following a formal resolution from Council, any required changes will be made to the Planning Agreement and finalisation can occur. A Planning Agreement is executed when it is signed by all of the parties.

Council will usually require a developer to give an irrevocable offer and execute the Planning Agreement at the following times:

- Development Applications (or modification application):
 - Council will seek to have the planning agreement executed prior to granting development consent.
 - Where the planning agreement is not executed prior to development consent being granted or modified, a condition will be imposed requiring execution of the planning agreement in accordance with the offer made and subsequent registration of the agreement.
 - Council will impose a deferred commencement condition requiring the execution and registration of the planning agreement be satisfied before the consent can become operational.

Council cannot impose a condition of consent that requires a developer to enter into a planning agreement on terms different to those offered, or if a planning agreement was not offered.

- Planning Proposals:
 - Council will seek to have the planning agreement executed prior to finalisation of any instrument change referred to in the planning proposal, or before Council makes that instrument change under delegation.
 - Council may also impose conditions of consent for related development applications requiring compliance with the Planning Agreement and the delivery of relevant contributions at the required time.
 - If the developer refuses to execute a planning agreement in connection with a PP or at the appropriate time, in accordance with Section 3.35 of the EP&A Act, Council may request the Minister not proceed with the instrument change.
- Complying Development Certificates: To be negotiated on a case by case basis.

7. PLANNING AGREEMENT PARTICULARS

Council's Costs of Negotiating, Entering Into, Monitoring and Enforcing a Planning Agreement

Council will require a Planning Agreement to make provision for payment by the developer of 100% of Councils costs of and incidental to:

- Negotiating, preparing and entering into the agreement (including associated legal costs and staff time);
- Enforcing the agreement.

Standard Charges

Wherever possible, Council will seek to standardise development contributions sought under Planning Agreements in order to streamline negotiations and provide fairness, predictability and certainty for developers. This, however, does not prevent public benefits being negotiated on a case by case basis, particularly where planning benefits are also involved.

Recurrent Charges

Council may request developers, through a Planning Agreement, to make development contributions towards the recurrent costs of public facilities. Where the public facility primarily serves the development to which the Planning Agreement relates or neighbouring development, the arrangement for recurrent funding may be in perpetuity. However, where the public facility or public benefit is intended to serve the wider community, the Planning Agreement will only require the developer to make contributions towards the recurrent costs of the facility until a public revenue stream is established to support the on-going costs of the facility.

Credits

Council will not agree to a Planning Agreement providing for the surplus value under a Planning Agreement being refunded to the developer or offset against development contributions required to be made by the developer in respect of other development in the Council's area.

Ongoing administration

In particular cases, Council may require the Planning Agreement to make provision for a development contribution by the developer towards the ongoing administration of the agreement.

Pooling of Development Contributions

Where a proposed Planning Agreement provides for a monetary contribution by the developer, the Council may seek to include a provision permitting money paid under the agreement to be pooled with money paid under other Planning Agreements or by other developer contributions and applied progressively for the different purposes under those agreements or contributions, subject to the specific requirements of the relevant agreements. Pooling may be appropriate

to allow public benefits, particularly essential infrastructure, to be provided in a fair, equitable and timely way.

Assignment and Dealings by the Developer

Council will require every Planning Agreement to provide that the Developer may not assign its rights or obligations under the agreement nor have any dealing in relation to the land the subject of the agreement unless, in addition to any other requirements of the agreement:

- The Council has given its consent to the proposed assignment or dealing;
- The developer has, at no cost to the Council, first procured the execution by the person with whom it is dealing of all necessary documents in favour of the Council by which that person agrees to be bound by the agreement as if they were a party to the original agreement, and
- The developer is not in breach of the Agreement.

Implementation

Council will require a Planning Agreement to provide for matters that relate to implementation of the proposed works, such as:

- The times at which and, if relevant, the period during which, the developer is to make provision under the Planning Agreement.

Council will generally require a Planning Agreement to provide that the developer's obligations under the agreement take effect when the first development consent operates in respect of development that is the subject of the agreement.

- The design, technical specification and standard of any work required by the Planning Agreement to be undertaken by the developer;
- The manner in which a work is to be handed over to the Council; and
- The manner in which a material public benefit is to be made available for its public purpose in accordance with the Planning Agreement.

Hand-over of Works

Council will also require the Planning Agreement to:

- Specify that the hand-over of a public work carried out under a Planning Agreement will not be accepted unless the developer furnishes to the Council a certificate to the effect that the work has been carried out and completed in accordance with the agreement and any applicable development consent (which certificate may, at the Council's discretion, be a final occupation certificate, compliance certificate or a subdivision certificate) and, following the issue of such a certificate to the Council, the work is also certified as complete by an appropriate Council officer.
- Provide for a defects liability period during which any defects must be rectified at the developer's expense.

If a Planning Agreement provides for the developer, at the developers cost, to manage or maintain land that has been dedicated to the Council or works that have been handed-over to

the Council, the Council may require the parties to enter into a separate implementation agreement in that regard (refer to 'Implementation' Section above).

The failure of the parties to reach agreement in relation to management and maintenance of the land or works may be dealt with under the dispute resolution provisions of the Planning Agreement.

Provision of Security Under a Planning Agreement

The Council will require a Planning Agreement to make provision for enforcement of the Planning Agreement (i.e. security) in the event of a breach of the Planning Agreement by the developer, consistent with Section 7.4(3) of the EP&A Act. The form of security will generally be the unconditional bank guarantee from an Australian Bank in favour of the Council to the full value of the Developer's provision under the Planning Agreement and on terms otherwise acceptable to the Council.

Notations on Planning Certificates Under section 10.7 of the Act

Council will require a Planning Agreement to contain an acknowledgement by the developer that the Council may, in its absolute discretion, make a notation under Section 10.7(5) of the EP&A Act about a Planning Agreement on any certificate issued under section 10.7 of the Act relating to the land the subject of the agreement or any other land.

Registration of Planning Agreements

Council will require a Planning Agreement to contain a provision requiring the developer to agree to registration of the agreement pursuant to section 7.6 of the Act if the requirements of that section are satisfied.

Dispute Resolution

In accordance with the EP&A Act, Council will require a Planning Agreement to provide for mediation of disputes between the parties to the agreement before the parties may exercise any other legal rights in relation to the dispute.

Methodology for Valuing Public Benefits Under a Planning Agreement

Unless otherwise agreed, where the benefit under a Planning Agreement is the provision of land for a public purpose, the Council will generally seek to value the benefit on the basis of the estimated amount of compensation to which the Developer would be entitled under *the Land Acquisition (Just Terms Compensation) Act 1991* upon the compulsory acquisition of the land. This means the estimated value of the completed works determined using the method that would be ordinarily adopted by a quantity surveyor.

Public use of Privately-Owned Facilities

If a Planning Agreement provides for the developer to make a privately-owned facility available for public use, Council may require the parties to enter into a separate agreement in that regard.

The failure of the parties to reach agreement in relation to management and maintenance of the land or works may be dealt with under the dispute resolution provisions of the Planning Agreement.

8. OPERATION, MONITORING AND REVIEW OF A PLANNING AGREEMENT

Monitoring and Review of a Planning Agreement

Council will continuously monitor the performance of the developer's obligations under a Planning Agreement.

Council will require the Planning Agreement to contain a provision establishing a mechanism under which the performance and milestones contained under the Planning Agreement are periodically reviewed with the involvement of all parties.

Council may appoint an officer to supervise the implementation of the works that are the subject of the Planning Agreement.

Modification or Discharge of the Developer's Obligations Under a Planning Agreement

Council may agree to a provision in a Planning Agreement permitting the developer's obligations under the agreement to be modified or discharged where the modification or discharge is linked to the following circumstances:

- The developer's obligations have been fully carried in accordance with the agreement.
- The developer has assigned the developer's interest under the agreement in accordance with its terms and the assignee has become bound to the Council to perform the developer's obligations under the agreement.
- The development consent or approval to which the agreement relates has lapsed.
- The performance of the Planning Agreement has been frustrated by an event beyond the control of the parties.
- Other material changes affecting the operation of the Planning Agreement have occurred.
- The Council and the developer otherwise agree to the modification or discharge of the agreement.

Such a provision will require the modification or revocation of the Planning Agreement in accordance with the EP&A Act and the EP&A Regulation.

Reporting and Register Obligations

In accordance with Section 7.5(5) of the EP&A Act, Council is required to include in its annual report the particulars of compliance with and the effect of the planning agreements in force during the year to which the report relates.

Council maintains a [register](#) of all Planning Agreements that have been executed by Council.
