

Where will there be a Coastal Management Program?

The Stage 1 City-wide Scoping Study took into account a wide range of factors that recommended the following regions required a specific CMP:

- Shoalhaven Open Coast
- Lower Shoalhaven River
- Jervis Bay
- St. Georges Basin
- Sussex Inlet
- Berrara Creek
- Swan Lake
- Lake Conjola
- Currambene Creek
- Shoalhaven Urban and Rural Estuaries
- Burrill Lake
- Lake Tabourie
- Lake Willinga

How can you get involved

Your involvement is critical to building a strong plan for the future. We encourage you to stay up to date and participate in the development of the CMPs by attending community sessions, subscribing to our Get Involved pages:

getinvolved.shoalhaven.nsw.gov.au/CMP, contacting us via email, in person or on the phone.

For more information contact Coastal Coordinator, **Nigel Smith** (nigel.smith@shoalhaven.nsw.gov.au) or **02 4429 5501**.

Coastal Management Programs

Shoalhaven City Council is preparing Coastal Management Programs that will aim to protect and preserve the future of the Shoalhaven's coastline and estuaries.

Each Coastal Management Program (CMP) will:

- Identify coastal management issues and threats to the coastline and the community
- Recommend actions required to address these issues in a strategic way
- Detail how and when those actions are to be implemented.

Its purpose is to benefit the social, cultural and economic well-being of the people of the Shoalhaven.

Each CMP will consider:

- Historic events
- Current conditions
- Future trends including population growth, environmental conditions, and climate change

Visit Council's Get Involved page [getinvolved.shoalhaven.nsw.gov.au/CMP](https://www.shoalhaven.nsw.gov.au/CMP) to see which stage your local area is currently at.

After extensive engagement with our community, a vision was created

Vision

"We care for and protect the coast so that current & future generations continue to be refreshed & inspired by their coastal experience"

5 Stages of a Coastal Management Program

Stage 1

Identify the scope of a CMP

Stage 2

Determine risks, vulnerabilities and opportunities

Stage 3

Identify and evaluate options

Stage 4

Prepare, exhibit, finalise, certify and adopt the CMP

Stage 5

Implement, monitor, evaluate and report
