

St Georges Basin - Sussex Inlet, Swan Lake and Berrara Creek
Coastal Management Program
Stage 3 Management Actions - Boating and Navigation
Sussex Inlet (north)

Undertake a detailed investigation into the feasibility of targeted dredging with detailed environmental assessments including seagrass mapping, sediment sampling, and sediment transport modelling, as well as cost benefit analysis.

 **BN03**

Reposition and add additional navigation aid markers  **BN01**

Undertake ongoing monitoring of sand movements via regular survey to assess feasibility and long term sustainability of dredging  **BN04**

Instructions

1. Zoom in to the map to view potential management action
2. Click on an icon to provide comments on the potential action at each location. This will open a web page where you can leave comments on the action and make suggestions.
3. Once you have submitted your response, close the browser window and return to this pdf map to review more management actions. Click on "Back to Get Involved Page" within the web form to return to the Get Involved Page.
4. Once you have reviewed and commented on the management actions, you can return to the Get Involved page by using this link:

[Back to Get Involved Page](#)

Investigate upgrade of ramp and carpark by undertaking necessary investigations, design and environmental approvals documentation for provision of on-ramp pontoon, additional lane, investigate extending carpark and providing line markings

 **BN22**

 **BN23**

Support the implementation of the Marine Estate Management Strategy (MEMS) Domestic Foreshore Structure Strategy through the promotion of and reference to the strategy through the provision of planning advice and via Council's website

Sussex Inlet

Provide lights on all navigation aids  **BN02**

Maintain ramp at minimum standard and designate it for use by non-powered craft  **BN21**

This project is being supported with funding from the NSW Government's Coastal and Estuary Grant Program.
