

**St Georges Basin - Sussex Inlet, Swan Lake and Berrara Creek
Coastal Management Program
Stage 3 Management Actions - Water Quality
St Georges Basin, Sussex Inlet, Swan Lake and Berrara Creek**

Implement riparian zones and fencing to exclude stock from banks
implement erosion management measures

WQ09

Review suggested locations for Gross Pollutant Traps (GPTs), implement sediment controls on catchment
development, bank erosion protection measures, review and update Council Development Control Plan
where necessary to ensure adequate soil erosion contro

WQ08

Continuation of NSW DPE Estuary Health Monitoring Program on approximately 3 year basis
Revised Council water quality program including estuary health monitoring
and swimming suitability. Sanitary inspections, event sampling to understand pollutants

WQ02

WQ05

Review and where necessary upgrade or retrofit erosion and sediment controls.
Identification of key development sites as root cause of observed poor water quality
and more stringent regulation.

Continued monitoring of estuary health by
NSW Department of Planning & Environment (DPE-EHG)

WQ07

WQ06

Revised Council water quality monitoring program to include assessment of future impacts of drought,
bushfires, flooding. Report on the results of Councils water quality monitoring and any impacts on
estuary health after 2019-20 bushfires.

St Georges Basin

Continuation of NSW DPE Estuary Health Monitoring Program on approximately 3 year basis. Revised Council water quality program
including estuary health monitoring and swimming suitability. Sanitary inspections, event sampling to understand pollutants

WQ04

Sussex Inlet

Swan Lake

Continuation of NSW DPE Estuary Health Monitoring Program on approximately 3 year basis. Revised Council water quality program
including estuary health monitoring and swimming suitability. Sanitary inspections
event sampling to understand pollutants

Berrara Creek

WQ03

WQ01

Continuation of NSW DPE Estuary Health Monitoring Program on approximately 3 year basis
Revised Council water quality program including estuary health monitoring and swimming suitability.
Sanitary inspections, event sampling to understand pollutants

Instructions

1. Zoom in to the map to view potential management action
2. Click on an icon to provide comments on the potential action at each location. This will open a web page where you can leave comments on the action and make suggestions.
3. Once you have submitted your response, close the browser window and return to this pdf map to review more management actions. Click on "Back to Get Involved Page" within the web form to return to the Get Involved Page.
4. Once you have reviewed and commented on the management actions, you can return to the Get Involved page by using this link:
