

Draft Workforce Management Planning Strategy 2022-26

Workforce Management Strategy

The Workforce Management Planning Strategy is a document that shapes the capacity and capability of the workforce to achieve Council's strategic goals and objectives over the next four years in alignment with Council's core values of Respect, Integrity, Adaptability and Collaboration.

It will act as a roadmap to guide key workforce initiatives to ensure Council can meet future workforce and organisational challenges. The document includes an assessment of workforce trends, needs, current challenges and forecasts future needs. The development of the Workforce Management Planning Strategy is aligned to the 2032 Community Strategic Plan and will support Council to achieve our Delivery Program objectives and positive outcomes for our community.

Given that employee costs are approximately one third of total operating expenses for the Council, how the Council plan and manages the workforce will have a significant impact upon the Council's financial sustainability. Furthermore, the capability, performance and productivity of the workforce are essential components of achieving long term financial sustainability for the Council. Therefore, the following plan for the management of the workforce as been developed to integrate with the other resourcing plans – Long Term Financial Plan, the Asset Management Strategy and the ICT Strategy – to enable the Council to deliver on the Community Strategic Plan in an approach that is financially sustainable.

In response to the recommendations of the Financial Sustainability Review amendments to the Workforce Management Planning Strategy have included strategies to enhance the asset management and project management capabilities across the workforce, as well as general improvements to the financial acumen at all levels of management.

Consistent with the other resourcing plans, the following plan includes three potential scenarios that the Council may decide to adopt – the base case scenario (not increase in rates above the rate peg) and two additional scenarios that include an increase in the rates above the rate peg. The rate peg is the maximum percentage increase that the Council is allowed to increase the general rate revenue and is determined by the Independent Pricing and Regulatory Tribunal (IPART). While enhancements to asset management, project management and financial management are essential for all three scenarios, with additional revenue through a special rate variation (increase above the rate peg) the Council will need to enhance the workforce capability to deliver the additional works, including the need to plan, deliver and report on the additional investments made.

While the ageing workforce is an issue across the organisation, it is most pertinent in City Services, where 46.4% of staff are 50 years or older. Table 2 displays the age distribution across Council. Council has in place an established traineeship and apprenticeship program to assist in attracting and retaining young people within the organisation through an agreement with a third-party provider with on average 50 participants involved. These externally engaged trainees are not included within the numbers below.

Forecasted Future Needs

Shoalhaven City Council needs to remain agile, with a continuing focus on customer service while developing a more proactive and planned approach to undertaking work. - Remain agile in changing environments
- Meet and manage the needs of stakeholders
- Attract and retain the right staff for the right roles.

Strategic Action Plan

In the context of the challenges faced by Council, we have identified nine areas with related strategic actions which form the basis of the Workforce Management Planning Strategy. These priorities were developed in collaboration with staff, to align and address behaviours and capabilities to achieve the community goals of the Community Strategic Plan. Each of these priorities have actions to be implemented across the organisation over the next four years. The following sections outline each action, what is the success indicator and who is accountable. Actions from this strategy will be incorporated into the Delivery Program Operational Plan with implementation progress reported through the quarterly performance report.
