**Construction of Bridge Creek Bridge & Boondabah Creek Bridge –**

Dear resident,

HD Civil has been engaged by Shoalhaven City Council for the contract to design and construct a new bridge over Boondabah Creek on Brooman Road, Brooman and a new bridge over Bridge Creek on The River Road, Mogood.

As a result, and while formal contractual issues are being finalised, we wish to advise you that we intend to start construction works approximately three weeks' from now.

Bridge Creek bridge will be replaced first and is due to be completed by mid-April 2024. However, this is very much dependant on favourable weather conditions.

The road will be closed at Bridge Creek for the duration of the construction works. Council works are also occurring on Shallow Crossing, and this will be closed from late-February to late-March. Residents travelling to the western side of shallow crossing can gain access from the north via Clyde Ridge Rd and from the south using Black Flat Road. Residents located between Bridge Creek and Shallow Crossing can use Barkshed Road and residents to the north of Bridge Creek can use the Sheep Track or the River Road as usual. Refer to the route markups enclosed with this letter for further details.

Please be patient, drive carefully and to the conditions as we look to ensure the safety of all road users as there will also be construction vehicles utilising this detour to gain access to site.

We will provide updates later in the project as to when we will be commencing works at Boondabah Creek Bridge. The construction works are currently proposed to commence around April 2024.

If you have any queries in relation to the Bridge Creek Bridge and Boondabah Creek Bridge project, I can be contacted by the below email.

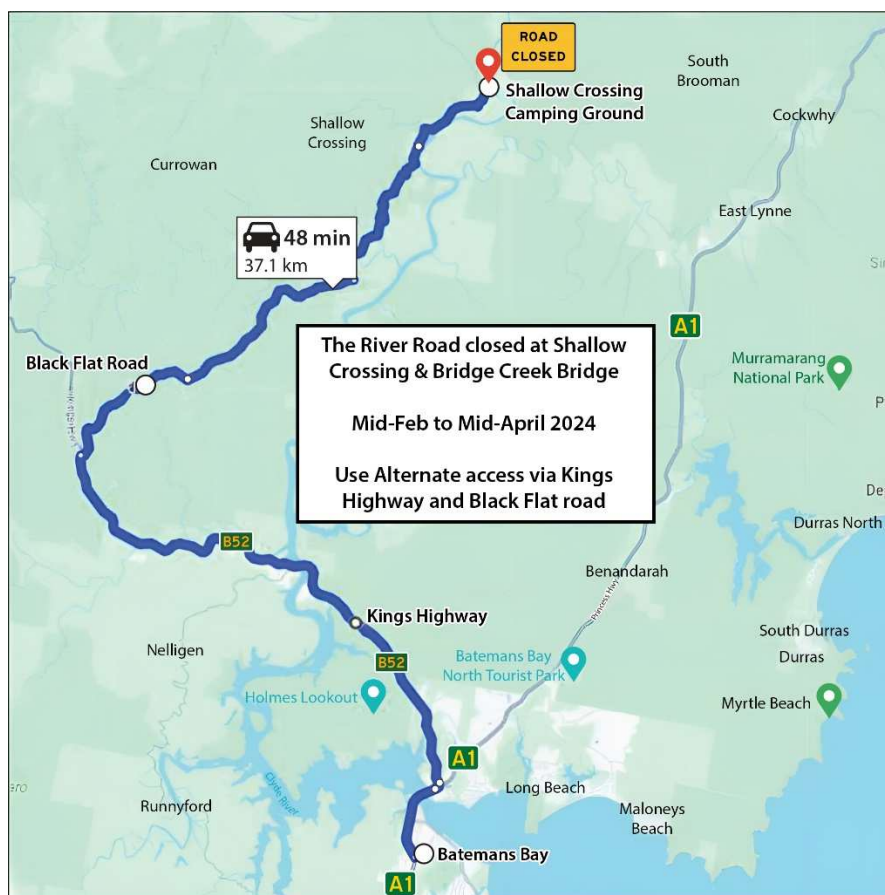

Alternatively, if you have any queries in relation to the Council works occurring on Shallow Crossing, please contact Scott Bowman, Maintenance Supervisor on 1300 293 111.

Yours Faithfully,

Trevor Delaney
