Dear Resident

### **Notification of Upcoming Works – Currowan Creek Crossing Upgrade**

Shoalhaven City Council wishes to advise of upcoming works at Currowan Creek Crossing on Western Distributor Rd in Currowan from June 2025 to September 2025.

The existing culvert crossing on Currowan Creek is being upgraded to a bridge to improve fish passage. This bridge infrastructure project was identified and is being funded by Department of Regional NSW – DPI Fisheries under the Marine Estate Management Strategy (MEMS) program.

**Figure 1 – Location Plan**

East Coast Civil Constructions Pty Ltd has been engaged by Council to undertake the design and construction of the new bridge. East Coast Civil Constructions intends to commence works on site mid-June 2025. Construction is scheduled to take approximately 14 weeks, weather permitting.

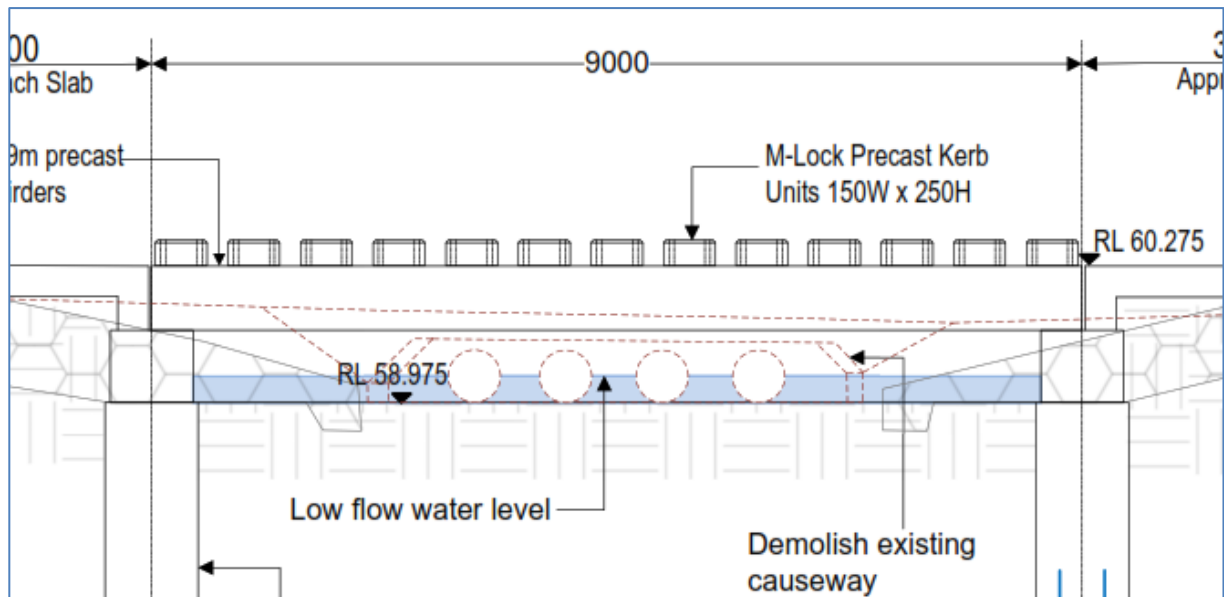

Figure 2 – New Bridge – Side Elevation

A temporary bypass route will be constructed adjacent to the existing crossing which residents can use for the duration of the works.

East Coast Civil Constructions will issue a separate letter to residents providing further details and a site contact closer to the commencement date. You can also subscribe to the “Western Distributor Road - Currowan - Crossing Upgrade” project page on Council’s website for regular updates:
