Executive Summary

This report provides an overview of Council's essential regulatory functions aimed at ensuring community safety, health, and environmental sustainability. Council is committed to regulating the key objectives in:

- public health and safety
- environmental protection
- overseeing land use and built development
- monitoring and enforcing parking safety
- animal management
- illegal dumping

To strengthen community confidence, Council prioritises transparency in all compliance matters in line with our Compliance & Enforcement Policy. We commit to providing a comprehensive half-yearly overview that details our regulatory activities, enforcement actions, and community engagement efforts.

This report highlights successes, challenges, and areas for improvement over the reporting period from 1 February to 31 July 2026, ensuring that our elected Council and community have access to clear and accurate information regarding regulatory compliance. By promoting an open dialogue and actively involving the community in these processes, Council aims to build trust and accountability, whilst reinforcing to enforcement across the Local Government Area.

Penalty Notices and Warnings

A combined total of 4,295 penalty notices were issued by the compliance disciplines during the reporting period (Table 1) (Appendix 1). These penalties have a face value of \$1,187,970 and based on historical figures; it is anticipated that Council will receive approximately 70% of this ticketed figure. A total of 30 warnings were issued during the period (Appendix 2).

Table 1: Penalties and warnings issued for February to July 2026

Compliance discipline	Number Issued	Total Amount	% of total amount	Warnings Issued
Compliance	31	\$105,330	8.87%	4
Compliance Swimming Pools	8	\$4,070	0.34%	0
Environmental Health	4	\$34,500	2.9%	1
Fire Safety	7	\$30,000	2.53%	1
Rangers – Animal management	448	\$209,675	17.65%	12
Rangers – Environmental	64	\$29,945	2.52%	3
Rangers – Parking	3,733	\$774,450	65.19%	9
Total	4,295	\$1,187,970	100%	30

Officers address a wide range of matters across multiple legislative frameworks, combining technical expertise, regulatory knowledge, and customer education to support positive environmental and community outcomes.

Compliance – Development and Pools

Thirty-nine penalty notices were issued by Compliance during the reporting period including thirty-one development related penalties:

- a) Bellawongarah (\$1,500): One penalty notice was issued to a property owner for the construction of an unauthorised swimming pool.
- b) Berry (\$6,000): Two penalty notices were issued to a property owner (corporation) and a contractor (corporation) in relation to unauthorised commercial construction works.
- c) Callala Beach (\$3,000): One penalty was issued in relation to non-compliance with a Development Control Order.
- d) Callala Beach (\$6,000): Two penalty notices were issued to a property owner (corporation) in relation to the conversion a dwelling including the garden shed into a boarding house. Offering substandard living for multiple residents for commercial gain.
- e) Culburra Beach (\$1,500): One penalty notice was issued to a carpenter in relation to unauthorised alterations.
- f) Culburra Beach (\$1,500): One penalty notice was issued to a property owner for the construction of an unauthorised swimming pool.
- g) Jaspers Brush (\$12,330): Three penalty notices were issued in relation to a new commercial intensive plant agriculture development and the construction of associated buildings.
- h) Mollymook (\$12,000): Two penalty notices were issued to the company involved in installing a prefabricated dwelling described to the property owners/purchasers as a tiny home where consent is not required.
- i) Mollymook (\$1,500): One penalty notice was issued to a property owner for the construction of an unauthorised swimming pool.
- j) North Nowra (\$6,000): One penalty notice was issued in relation to substantial construction works converting a mechanical workshop to a food shop.
- k) North Nowra (\$3,000): One penalty notice was issued in relation to failure to provide information regarding the operation of a brothel.
- l) Pyree (\$1,500): One penalty notice was issued in relation to failing to comply with conditions of consent.
- m) South Nowra (\$15,000): Three penalty notices were issued to a property owner (corporation) who developed a dwelling and associated ancillary buildings into a boarding house offering substandard living for multiple residents for commercial gain. Same company as in Callala Beach.
- n) Sussex Inlet (\$3,000): One penalty notice was issued to a company for the construction of a large retaining wall.

- o) Tomerong (\$1,500): One penalty notice was issued to a property owner who carried out unauthorised development by way of constructing and operating a primitive campground.
- p) Tomerong (\$4,500): Three penalty notices were issued to a property owner who cleared a large amount of vegetation and built a dwelling without consent.
- q) Ulladulla (\$12,000): Two penalty notices were issued to a property owner (corporation) who failed to comply with two separate Development Control Orders relating to unsafe structures.
- r) Ulladulla (\$6,000): Two penalty notices were issued to a property owner (corporation) and a contractor corporation who carried out works without the appropriate certificates.
- s) Ulladulla (\$1,500): One penalty notice was issued to a contractor (individual) who constructed a deck after telling the property owners they did not need consent for their deck.
- t) Woodstock (\$1,500): One penalty notice was issued to a property owner for construction works without development consent.

Eight penalty notices were issued in relation to swimming pool compliance during the reporting period for offences including swimming pools not being registered, not having a warning notice, failing to maintain a child resistant barrier, failing to comply with a written direction and swimming pools without a complying barrier (Figure 1).

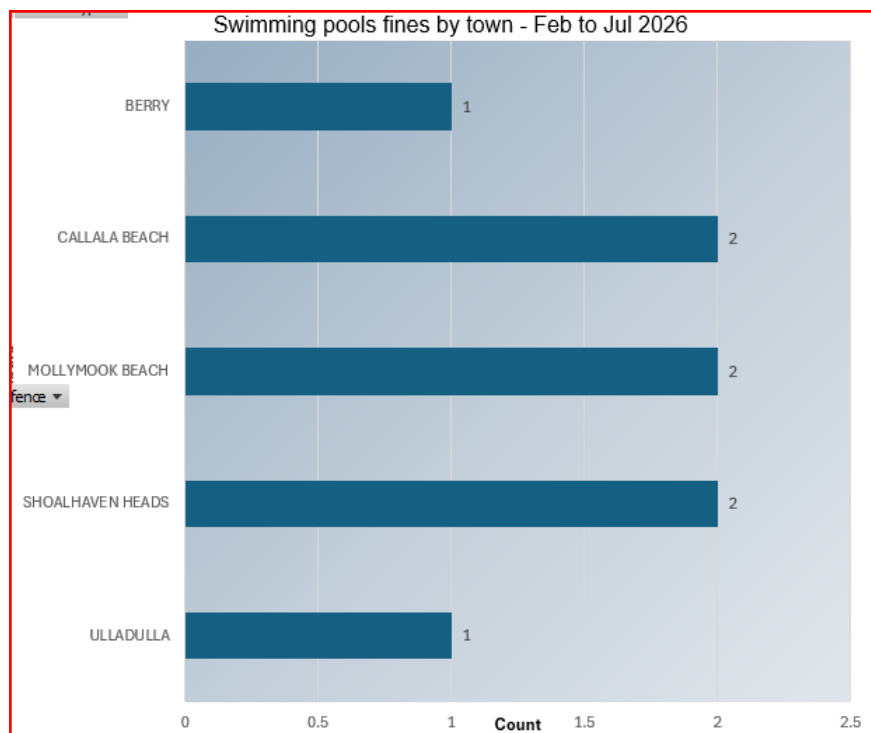

Figure 1: Swimming pools related penalty notices by town for the period

Fire Safety

Seven Fire Safety penalty notices were issued during the reporting period:

- a) Nowra (\$6,000): Fail to comply with terms of development control order
- b) Huskisson (\$4,000): Not give annual fire safety statement 4th week after expiry
- c) Nowra (\$4,000) x 5: Not give annual fire safety statement 4th week after expiry

Environmental Health

Four penalty notices and one warning were issued by Environmental Health during the reporting period:

- a) Bomaderry (\$1,000): One penalty notice was issued to a fuel company (Corporation) for operating an underground fuel system without a Fuel System Operation Plan in place.
- b) South Nowra (\$500): One penalty notice was issued to an individual for burning in open and not minimising air pollution.
- c) Tomerong (\$0): A warning was issued to a company for development without development consent for vegetation removal. Which would have equated to \$6,000 if issued as penalty notice
- d) Badagarang (\$33,000): Two penalty notices were issued to a building company (Corporation) for development not in accordance with development consent class 1a or 10 building and pollute waters for storing materials in a manner that resulted in a pollution incident.

Badagarang – Pollution incident
Polystyrene pods blown from a building site

Badagarang – Pollution incident
Waffle pods blown from a building site

Examples of Environmental Health offences

Compliance and Environmental Services Court Matters

There were no court elected matters during the reporting period.

Ranger Services

Rangers – Animal Management

Penalty Notices

There was a total of 107 dog and one cat related penalty notices issued for the period (not including registration offences). Figure 2 provides information on the penalty notices issued by town for the period.

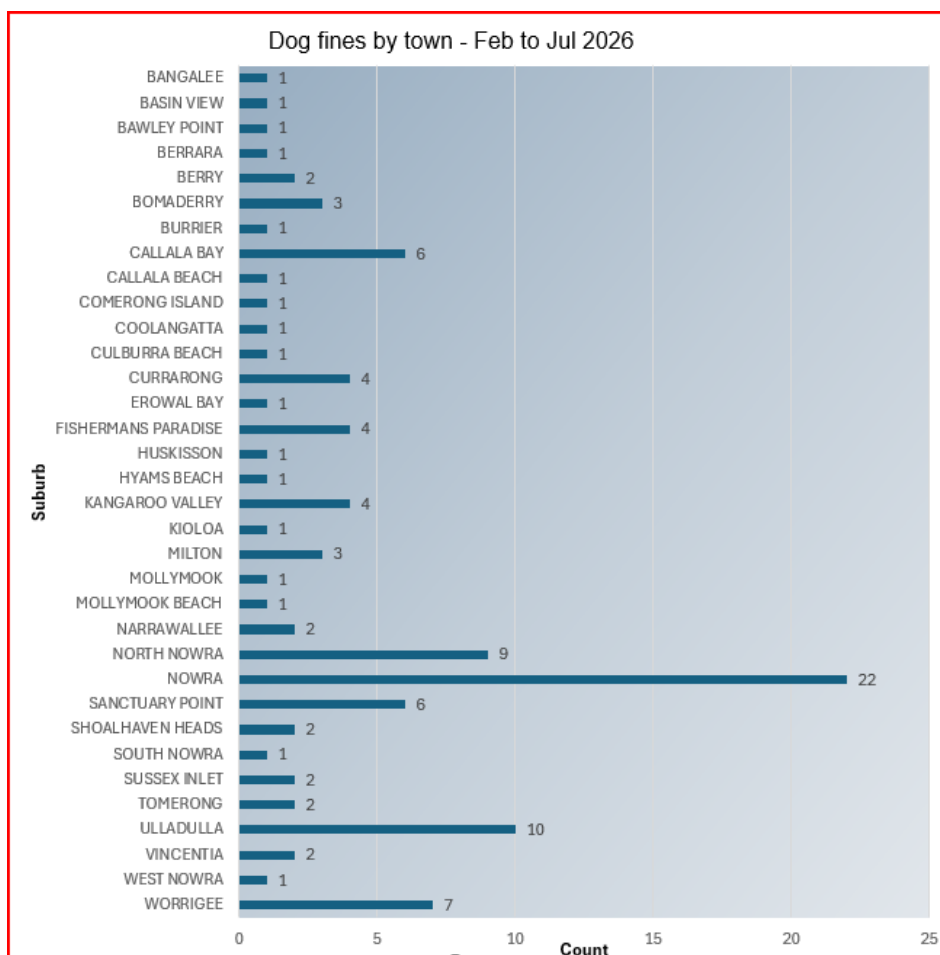

Figure 2: Dog & cat related penalty notices by town for the period

Dog Attacks:

Rangers received and attended 134 reports of dogs attacking during the reporting period. Of these reports, 93 investigations have been completed with 62 penalty notices issued (i.e., 62 x \$1,320 = \$81,840). A further 41 matters remain under investigation.

Although the penalty is high, dog attacks remain a major risk. Whilst there is more awareness in the community, there may still be several unreported dog attacks. Rangers continue to apply Council's resolution of 21 April 2020 (MIN20.264) for zero tolerance and issue penalty notices for all substantiated dog attacks.

As a result of dog attack investigations, declarations or orders may be issued to dog owners (Table 2). Dog owners can apply to have a declaration revoked after 12 months. Council will assess the application and determine the outcome. Nuisance orders remain in force for six months.

Table 2: Declarations and Orders for dogs in Shoalhaven LGA

Declared Dogs in Shoalhaven LGA	Number
Dangerous Dog Declaration	11
Menacing Dog Declaration	18
Restricted Breed Dog Declaration	0
Nuisance Order	11
TOTAL	40

Registration non-compliance: 340 penalty notices were issued for non-compliance with the requirements for lifetime registration, microchipping and keeping details up to date on the Companion Animals Register.

Animals – other: 46 penalty notices were issued for other dog offences such as dog not under effective control and fail to comply with control order.

Rangers – Environmental

A total of 64 penalty notices were issued for Rangers – Environmental matters. This includes camping, illegal dumping, unattended vehicles and fail to comply penalties.

Rangers – Parking

A total of 3,733 parking tickets were issued in the period. The breakdown of the tickets issued by town is provided in Figure 3.

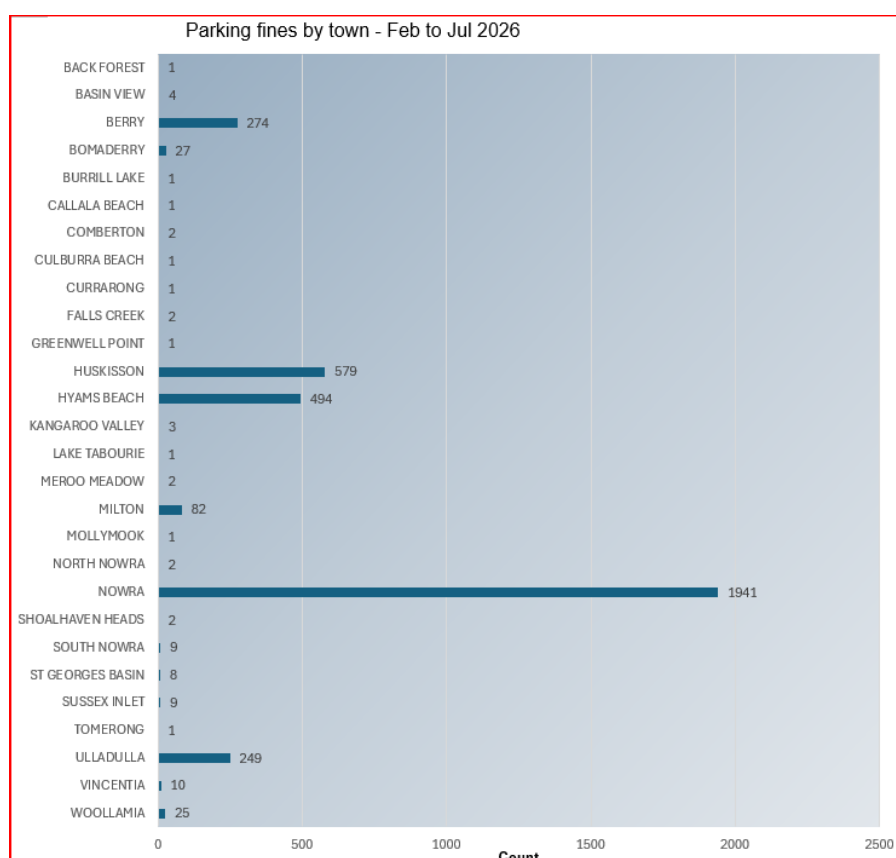

Figure 3: Parking penalty notices issued by town

	
Nowra - Council car park Not park in marked space	Milton – Wrong direction of travel Fine issued
	
Sussex Inlet – park in bus zone Fine issued	Milton – no stopping, school zone Fine issued
	
Nowra – not display MPS correctly Fine issued	Nowra – car in motorbike bay Fine issued

Examples of Ranger Services parking offences

Customer Requests

Compliance

Compliance received 272 Customer Requests in the reporting period (Table 3).

Table 3: Customer requests by type received

Type of customer requests received	Number Received	Percentage of total (%)
Development Concerns	222	82
Stormwater Complaints	20	7
Swimming Pool Inspections	30	11
TOTALS	272	100

The following additional comments are made:

- a. Development concerns: This represents the highest percentage of customer requests and includes development without consent, development not in accordance with consent and land safety issues such as landslides and fire damaged dwellings.

The development requests received were from all areas of the Shoalhaven LGA, with the central area representing the highest total with 65 of the 222 or 28% of the total development requests received.

- b. Stormwater: Compliance receives a high number of complaints following extreme weather events. These complaints are often in towns without street drainage infrastructure and require officers to liaise with the customers to acknowledge their concern but often to advise that Council is not able to implement actions.

The requests received were from all areas of the Shoalhaven LGA, 20 stormwater requests in total with 40% coming from the central Shoalhaven area.

- c. Swimming pool compliance: This includes concerns raised by members of the public, referrals from private certifiers and Council's proactive inspection obligations. Council's Compliance team continues to enforce swimming pool legislation in accordance with the Council resolution (MIN22.946) to take a zero-tolerance approach to swimming pool breaches and have attended a high volume of unauthorised pools during the quarter.

There were no warnings issued for swimming pool offences in the reporting period.

Compliance continues to streamline processes internally with the intent of reducing office-based time and increase the number of pools being inspected each quarter. For the half-yearly reporting period Council conducted 127 inspections.

Fire Safety

Council has an obligation to ensure commercial buildings are safe for occupants in the event of a fire, ensuring both egress requirements comply, and statutory fire safety measures are not only installed, but functioning as required.

In this regard, Fire Safety staff are reviewing and taking enforcement action against building owners whereby the submission of annual fire safety statements are several years overdue.

Fire Safety received 219 enquires through Request Management with an additional high volume received directly by staff. This includes requests for fire safety schedules, enquiries about building audits and concerns from the public.

A total of 359 annual fire safety statements were received during the reporting period and staff continue to follow-up on those due but not submitted.

Fire Safety staff are also part of Council Fire Safety Service Review in collaboration with Corporate Performance, Reporting and Corporate Information Systems and City Development Business Support with the aim to improve customer service and efficiency.

Environmental Health

Environmental Health received 1,320 Customer Requests in the reporting period (Table 4).

Table 4: Environmental Health customer requests by type

Category of customer requests	Number Received	% of total requests
Air, Land & Water Pollution (inc. Sediment & Erosion)	118	8.9%
Animals (keeping animals in residential areas)	44	3.3%
Contaminated land enquiries	7	0.5%
Noise Pollution	23	1.7%
Proactive – Environmental Inspections	588	44.5%
Public Health	318	24.1%
Short Term Rental Accommodation (STRA)	7	0.5%
Tree and Vegetation (private property)	215	16.5%
TOTAL	1,320	100%

The following provides a breakdown of the aspects of the customer requests that Environmental Health received:

- a. Air, Land and Water Pollution (inc. Sediment & Erosion): represents one of the highest percentages of customer requests received by Environmental Health and includes backyard burning, odour and smoke; pollution to waters and sediment and erosion pollution from building sites.
- b. Animals (keeping animals in residential areas): relates to requests received by Environmental Health in relation to the keeping of animals and conditions. This can relate to odour, nuisance (noise) and structures.
- c. Contaminated Land enquiries: Environmental Health administers the Potentially Contaminated Land (PCL) layer in GIS and provides advice internally and guidance to members of the public.
- d. Noise Pollution: noise disturbances from prescribed articles such as air conditioners and pool pumps as well as musical instruments, poultry, and licensed establishments.
- e. Proactive – Environmental Inspections: represents the proactive inspections undertaken for sediment and erosion controls and underground petroleum storage systems.
- f. Public Health enquiries: includes food premises, on-site septic systems, overgrown properties, skin penetration premises, caravan parks, commercial swimming pools and hoarding and squalor. Requests can be complaints about a premises or enquiries for setting up a premises or questions regarding operations.
- g. Short Term Rental Accommodation (STRA): while STRAs are administered by NSW Fair Trading, Environmental Health responds to complaints by issuing letters outlining owners' responsibilities and providing advice to customers.
- h. Tree and Vegetation (private property): relates to enquiries about tree and vegetation removal restrictions and permissions in the Shoalhaven, which often require review of historical development approvals or Section 88B instruments to provide accurate advice.

Ranger Services – Animal Management

A total of 836 animal management complaints were received for the quarter (Figure 4).

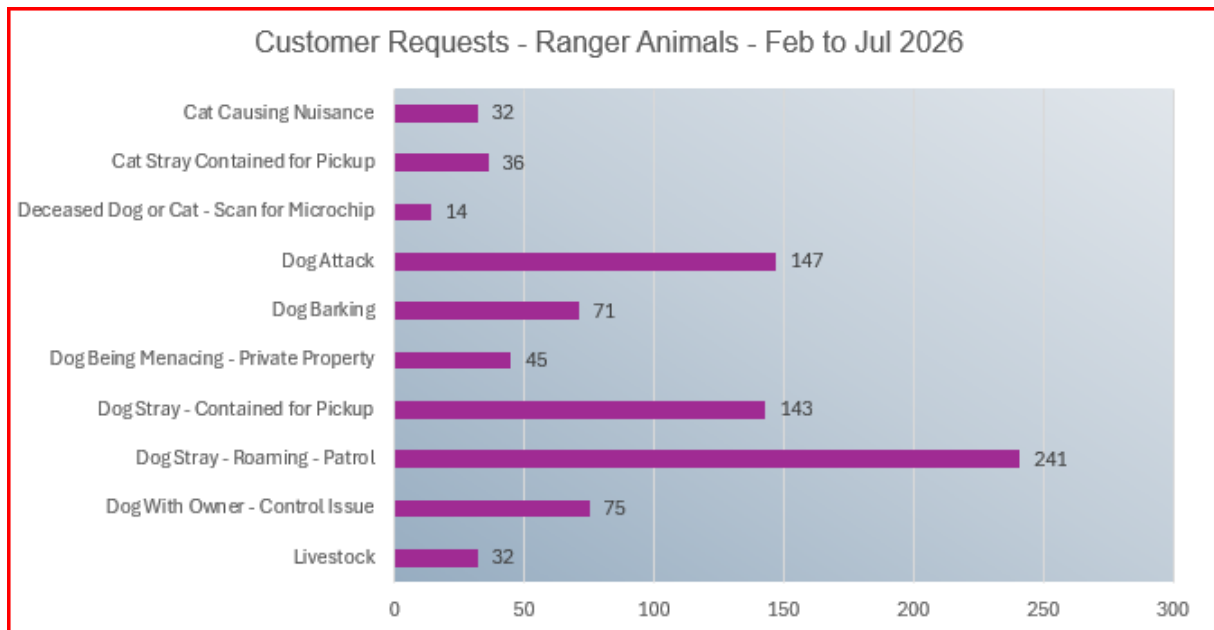

Figure 4: Customer requests for animal management issues

Ranger Services – Environmental and Parking

Rangers attended 1,616 environmental, parking and other complaints (Figure 5).

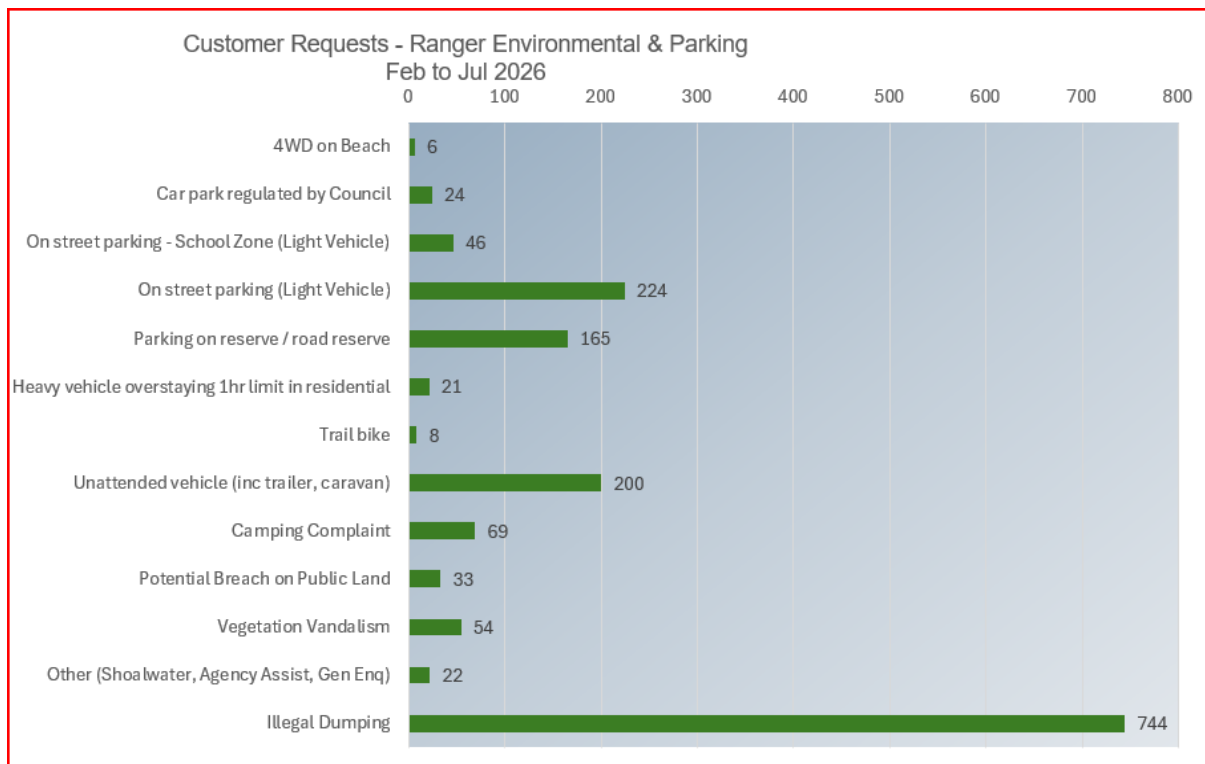

Figure 5: Customer requests for environmental, parking and other issues

The following provides a breakdown of the aspects of the customer requests that Ranger Services received:

- a. Vegetation Vandalism: Ranger Services received 54 reports of vegetation vandalism and 4 are still under investigation. Rangers continue surveillance of these vandalised areas in accordance with Council's Vegetation Vandalism Prevention Policy.
- b. Proactive Beach Patrols: Ranger Services completed 938 beach patrols during this quarter. A number of dog owners were spoken to during this period with Rangers identifying 1,094 compliant dogs and 102 non-compliant dogs. Enforcement action and education is undertaken when offences are detected (Appendix 3).
- c. Proactive Patrols – Other: Ranger Services completed 1,076 patrols with categories including Asset Inspection (RID), Asset Protection, Camping, CBD Foot Patrol, Illegal Dumping, Parking, Schools, Shopping Trolley, Unauthorised Signage, Vegetation Vandalism (Appendix 4).

	
Joint effort by RSPCA, the Real Estate & Council Ranger to help a dog abandoned when tenants left rental property	Declared dog seized due to non-compliance

South Nowra – unattended derelict caravan. No owner identified. Removal required

Yerriyong - Rangers, Crown Lands and NSW Police worked together to relocate a homeless family and clean up the site.

Unauthorised camping at Moona Moona Creek, Huskisson – Fines issued

Examples of incidents investigated by Ranger Services

Ranger Services – Report Illegal Dumping (RID)

744 illegal dumping incidents were reported to RID Online including 135 duplicate jobs which often are re-reported if the rubbish remains in situ for some time. Of this figure, 18 incidents remain open pending further investigation. Strategies to reduce and prevent illegal dumping includes collaboration with other public land managers and Local Aboriginal Land Councils in the Shoalhaven.

The estimated cost to Council for the removal of the waste reported for the reporting period is \$65,064.31 with a total clean-up cost for all land managers of \$98,029.34. Data relating to this information is outlined in Table 5.

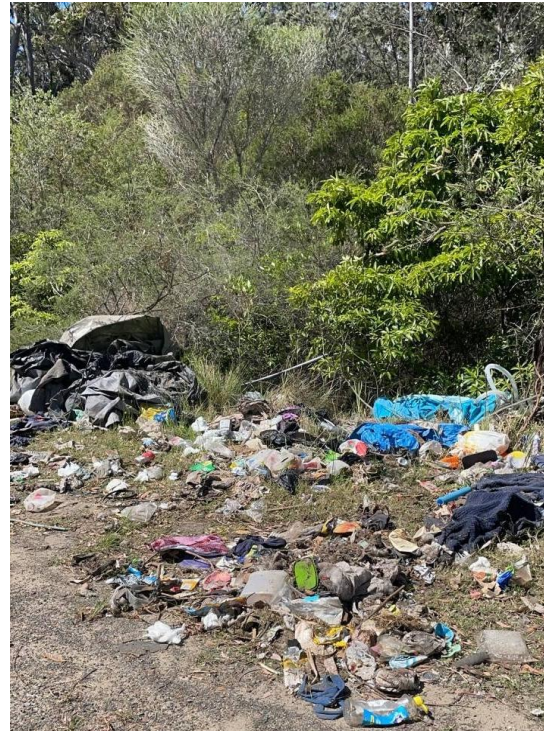

Council has experienced a 21.4% decrease in reported illegal dumping incidents compared to the corresponding period in 2024/25. This is the first half-yearly reduction in the past five years.

Table 5: Waste types and weight for the period (from RID online)

Waste Types	Incidents	Incident %	Weight (tonnes)
Asbestos	9	1.5	1.75
Commercial & Industrial	30	4.9	3.44

Ranger Services – Animal Shelter

The animal shelter continues to achieve positive outcomes while facing ongoing challenges in providing optimal care.

- **88.5% of cats** entering the shelter are **not microchipped** which is an increase from the previous period which was 73%. However, the actual intake of cats has decreased by 14%.
- **Non-microchipped dogs** decreased to 38% from 45% in the previous period.
- **Reclaim rates have increased** this period. **Cat reclaims have increased from 4.5% to 9%. Dog reclaim rates have increased from 28% to 34%**

Data related to the Animal Shelter activities is presented in Tables 6, 7 and 8.

Table 6: Data on incoming and outgoing dogs and cats

Cats	Number	Dogs	Number
Cats incoming M/C	16	Dogs incoming M/C	96

Companion Animals Register

The numbers of companion animals per animal category is presented in Table 8. This information is reliant on pet owners keeping their information current on the Register.

Table 8: Companion animals in Shoalhaven LGA

Animal category	Total animals in Shoalhaven		
	ID Only	Registered	Total
Cats	4,292	14,966	19,258
Dogs	15,479	53,761	69,240
Total	19,771	68,727	88,498

Incoming Companion Animal forms

Pet owners can manage their own data via NSW Pet Registry, but the option exists to utilise Council for this service. Council is required to update the information within seven days of receipt. A total of 2,645 forms were processed at Council.

A total of 1,060 registrations totalling \$43,584 were received via Council (Appendix 5).

A total of 116 additional fees totalling \$22,338 for non desexed dogs were received via Council (Appendix 6).

Education

Compliance

The compliance team has undertaken the following education measures in the first half of 2026.

Swimming Pools

The Compliance Team continued with the “**A pool that complies saves lives**” campaign throughout the 2025–26 summer period. Relaunched in November 2025, the campaign focused on promoting backyard pool safety and reinforcing key compliance requirements, particularly in higher-risk environments such as short term rental accommodation (STRA) properties and caravan parks.

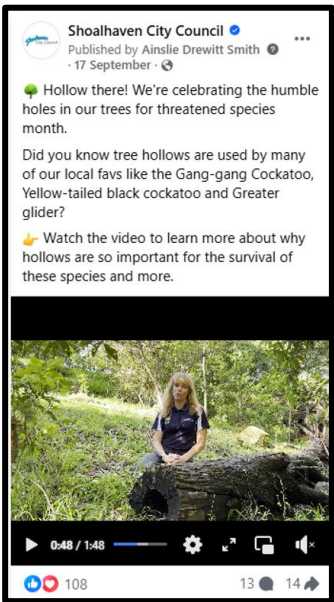

A coordinated communication strategy was delivered through strong collaboration with Council’s Media & Communications Team, who facilitated the design, preparation, and rollout of campaign materials across all channels.

Environmental Health

Our Environmental Health Officers have presented at the following events in addition to multiple social media campaigns:

- (a) Webinar for Environmental Health Australia (NSW) on Councils involvement in the Get The Site Right state campaign.
- (b) Presentation to NSW Health - Health Protection Workers on best practice management of Private Water Supplies at commercial premises.
- (c) Presentation to the community on the importance of tree hollows in protecting and preserving threatened species.

Our Environmental Health Officers have collaborated in several multiagency Public and Environmental Health investigations.

	
Hollow awareness social media post	Map of local walks showing hollows

In March, Environmental Health collaborated with Ranger Services on the Get The Site Right campaign. Two dedicated officers spent a month focused on sediment and erosion controls on building sites in addition to encroachment into reserves, rubbish management, and water theft with other officers focussing on the targeted Blitz Day.

We conducted 531 inspections with a local compliance rate of 84%. Statewide there were 784 inspections completed with overall compliance reaching 79% while the Sydney metropolitan councils achieved just 44% compliance.

Ranger Services

Council's website provides information about our team's roles and responsibilities and how we support the community.

Animal Shelter:

"Did You Know" Facebook posts are published weekly on Sundays and focus on educating the community on responsible pet ownership and animal welfare. Topics focus on promoting responsible pet ownership, animal welfare, and community awareness, with an emphasis on legislative compliance, preventative care, emergency preparedness, and informed decision-making.

Shoalhaven Animal Shelter attended the Kangaroo Valley Show in February with a marquee and two shelter dogs, promoting the shelter and answering community questions about its services and operations.

Each May, Petstock stores nationwide host adoption weekends. This year, Petstock Ulladulla invited Shoalhaven Animal Shelter to participate. Shelter staff attended on 23 and 24 May with a shelter dog.

Since March, a Shelter representative has appeared monthly on Triple U FM's *Chance & Beck Brekki* program, providing education and information about animals in the shelter's care and promoting responsible pet ownership. Topics have included changing pet ownership details, reclaiming lost pets from the shelter, and other animal welfare issues, helping to keep the community informed and engaged.

Lilly at the Petstock event

Keeping Cats Safe at Home:

This is a joint initiative coordinated by RSPCA working with 30 councils in NSW including Shoalhaven. Phase 2 of this project will run for 18 months finishing in December 2026. It focuses on desexing and social media. A total of 64 cats have been desexed in this financial year with a target of 100 to be achieved.

[Council supports Keeping Cats Safe at Home | Shoalhaven City Council](#)

 Time to register and desex your cat Cat-owners in the Shoalhaven are being reminded to register and desex their pets to avoid costly fines. Under the NSW Companion Animals Act, residents with cats over the age of four months are required to desex the animals or obtain an annual permit. We also encourage cats to be desexed to improve the feline's health and wellbeing, minimise nuisance behaviour and protect wildlife. KNOW THE RULES	Time to register and desex your cat Published on 09 March 2026  • 117 views • 94 users • 51s average engagement time
